

Delivering oral health education to children

The Transformative Power of Volunteerism

Calling all dental professionals!

Join the impactful **Colgate Bright Smiles, Bright Futures®** program and make a difference in children's oral health. Our program operates nine cutting-edge mobile dental vans, equipped to screen over 10 million children annually and we are currently in need of volunteers in the New Jersey and New York areas.

As a volunteer dental professional, your expertise is crucial during our mobile dental van visits where you'll conduct brief visual examinations for children up to 12 years old with parental consent. Parents are provided with screening results and referrals to local dentists if necessary. Contribute to our mission of raising awareness about the importance of children's oral health in underserved and urban communities. All while engaging in a positive environment, featuring games and videos, ensuring a delightful experience for the children. Join us in making a lasting impact on children's smiles and be a vital part of transforming oral health education for the next generation!

We have attached a list of sites where we need volunteers to help screen children for the program. Please respond to this email newyorkbsbfteam@gmail.com with the site and date(s) you would prefer and we will provide you with more information about the screening process.

Omar Sanchez, RDH
NJDHA Public Health Issues Director
