Each musher agrees to read, understand, sign, have notarized and submit to YQA the Musher Release and Hold Harmless Agreement before the start of the race.

Further, each musher grants YQA the unqualified and unrestricted right to use any and all written information, photographs, video tape or other visual media of the musher, dogs and their support personnel taken during the YQA or any phase of the YQA, including scheduled events before or after the YQA, for promotional, revenue generating and/or other purposes, without compensation of any kind and without the right to approve the media or its usage.

Any Mushers' Report/Protest Forms must be submitted to a Race Official within 48 hours of the final team crossing the Finish Line or within 48 hours of the Finish Banquet, whichever is later.

In reference to action taken by the YQA Rules Committee, Race Marshal or Race Judges during the race, YQA may censure and/or fine and/or penalize a musher for cause, including prohibition from entering a future race or races. A musher so involved may appeal the decision of the YQA. Appeals must be presented in writing to the YQA Board of Directors within 30 days of the musher being notified of the censure, fine and/or penalty. YQA will appoint an Appeal Board to conduct an informal hearing to make a decision. The decision of the Appeal Board is final.

If the YQA Appeal Board finds the decision should be set aside, the musher so involved understands and agrees that the maximum financial recovery shall be limited to the prize money for the finishing position that the musher so involved could realistically have attained but for the action taken. The musher so involved further agrees that this remedy shall be the sole and exclusive remedy. In no event shall the musher so involved be entitled to incidental or consequential damages as they are outside the sole and exclusive remedy above provided.

16. Statutory Compliance:

Any musher who violates a U.S. State or Federal law while in the race may be disqualified if convicted.

TRAIL PROCEDURE

CODE OF THE TRAIL: Competitive efforts in the spirit of the Yukon Quest Alaska are only valid if dog care is implemented at the highest level. A dog musher recognizes and accepts that honor on the trail is only achieved through the constant respect and care for the dogs. It is on this the mushers will be judged.

17. Common Start/Late Start:

Mushers must wear their Start Bib as they start the race. Failure to do so will result in a \$250 fine. Teams will leave the starting line at three-minute intervals.

Any musher who cannot leave the starting line in the order drawn will be started after the scheduled departure time of the final team.

Any team that cannot leave the starting line within 60 minutes of the last team's departure may be disqualified. The starting time differential will be compensated for during each team's mandatory four-hour layover at either Mile 101 or Central.

For elapsed time purposes, therefore, the race will be a common-start event. YQA will give to each musher their total layover time at Mile 101 or Central, musher's choice, which will not be changed in the event of a late start.

18. Gear and Equipment:

A GPS Tracker provided by YQA is mandatory; it must be turned in to a race official at the completion of the race, or when scratching, withdrawn, or disqualified.

- a. The following items must be presented to the checker before checking in at each checkpoint:

 4. Veterinary records (loss will incur \$500 fine.) The veterinary book must be returned to a Race Judge upon completion of the race or when withdrawing for any reason.
 5. Any promotional material that YQA has asked the musher to carry to Tok. YQA may require one or two banners of up to 400 square inches or 2,580 square centimeters be displayed on the sled as directed.
 6. Functional cooker.
 7. An adequate amount of fuel to bring three gallons of water to a boil.

Mushers should have these items in their possession at all times. If a musher loses a required article of gear between checkpoints, he/she cannot check in at the checkpoint until he/she has acquired and replaced the lost item.

- The musher may obtain items from a public or private source with the approval of the Race Marshal or Race Judge. A fine of \$250 will be assessed for each item.
- **Dogs are expected to be cared for prior to replacing lost item(s).**

In addition to the mandatory gear listed above, items relative to the safety of the dog teams and mushers (i.e. sled brakes, mittens, etc.) may be replaced with the Race Marshal or Race Judge's approval. A fine of \$250 will be assessed for each item.

Should any mandatory gear be missing at the finish, a fine of \$250 will be assessed for each item.

- b. In addition, eight booties for each dog, either in the sled or in use and in the sled, are required when a musher signs out of each checkpoint.
- c. PLBs (Personal Locator Beacons) or SENDs (Satellite Emergency Notification Devices) will be allowed at the Musher's discretion. **Activation of a PLB or SEND will constitute withdrawal or disqualification from the race.**
- d. **GPS will be allowed.**
- e. SPOT Units: **If either the SOS or 'hands' button (non-life-threatening situation) is activated, the musher and team shall be withdrawn or disqualified.**

NOTE: It is strongly recommended that an adequate amount of emergency food, in addition to what you carry for routine feeding and snacking, be carried in the sled at all times. A map, compass, parka, human and canine first aid kits, flares, and dog blankets are recommended.

19. Checkpoint:

a. Check-in/Sign out:

Each musher must personally check in and sign out at each checkpoint before going on. The time into the checkpoint shall be recorded upon completion of the mandatory gear check.

- Any musher failing to sign out, or to leave within 60 minutes of signing out will be assessed a \$250 penalty or **a musher and team may return on the trail to a checkpoint to sign out without penalty.**
- The 60 minute rule may be extended with the approval of the Race Marshal or Race Judge.
- Teams may return to a checkpoint for additional rest and/or supplies (with the Race Marshal's or a Race Judge's approval) without penalty.

Race Veterinarians and mushers shall sign the vet book at all checkpoints. At checkpoints not requiring a mandatory vet check, the Race Marshal or Race Judge may sign the vet book if a Race Veterinarian is not present.

b. Holding Area:

Only one handler per team will be authorized to be in the holding area at any time, to observe only or intervene in case of a dog emergency or distress. If the musher is in the holding area, the handler must leave.

c. Dogs Entering and Leaving Checkpoints:

All dogs must leave checkpoints in harness and attached to the tow line. A dog may arrive at a checkpoint in the sled and leave in harness attached to the tow line. Handlers may assist the musher in safely getting the team to the check-out point.

A Musher may not lead team out of a checkpoint.

d. Food and Equipment:

After the musher leaves a checkpoint, all litter and remaining supplies must be bagged by the handler. Straw collection procedure for each checkpoint will be determined by the Race Marshal or Race Judge. * The Start Time Differential will be adjusted in Mile 101 or Central.

During each mandatory stop, every team will be evaluated by a YQA veterinarian. The musher must be present during the evaluation. **Vet books will be signed by the examining vet and musher.** Race Veterinarians will report their findings to Race Officials.

Time penalties will only be served at the following **designated mandatory stop: Chicken**

Any time penalties assessed after Chicken will be added to the overall finish time.

21. Race Course:

All teams must follow the trail as marked or as instructed by the Race Marshal.

Mileage between Checkpoints:

Fairbanks - Two Rivers: 41

Two Rivers - Mile 101: 72

Mile 101 - Central: 28

Central - Circle: 75

Circle - Eagle: 160

Eagle - Chicken: 90

Chicken - Tok: 78

22. Competitiveness Rule

The Race Marshal shall at any time withdraw or disqualify a Musher they feel is not making a true attempt at running a competitive race or is in a position to not keep up with the race thus endangering themselves, their dogs and/or causing undue burden upon the Yukon Quest Alaska organization. The Race Marshal shall make this call based upon the condition of the team, trail and weather conditions, attitude and skill level of the musher and the pace at which the team and other teams are traveling. Any musher whose conduct, lack of skills and/or conditioning of their team to meet trail conditions which would expose the team or musher to personal risk in the judgment of the Race Marshal, shall also be withdrawn or disqualified.

23. Standard Race Courtesy:

Standard race courtesy shall prevail. An overtaken musher and team must relinquish the trail at the request of the overtaking musher, except within 1 mile or 1.6 kilometers of the finish line in Tok. Ski poles may not be used within 100 yards or 92 meters of another team.

24. Clearing the Trail:

Mushers setting up camp must clear the trail of their dogs and gear. Build fires a safe distance off the trail. Failure to do so may result in fines and/or time penalties at the Race Marshal's discretion.

25. Litter:

Litter of any kind may not be left along the trail or at cabins. Camps must be cleaned up before the team moves on. Excess food or gear may be given only to residents along the trail or to other mushers.

This is a historic trail, and its continued use for the race relies upon compliance with this policy. Failure to abide by this rule may result in disqualification, \$250 fine and/or time penalty at the last **designated mandatory stop**.

26. One Musher Per Team:

Only one musher per team is permitted, and that musher must complete the race with that team only.

27. Tampering:

No musher may tamper with another musher's dogs, food or gear.

28. Teams Tied Together:

Two or more teams may not, in any way, be tied together except to assist a musher in trouble at some immediate location. The mushers of any teams so involved must notify officials at the next checkpoint along the trail. A musher will not be penalized for helping another musher in danger for his/her life.

29. Outside Assistance:

No planned help is allowed throughout the race. No musher may receive outside assistance between or at checkpoints unless an emergency has been declared by the Race Marshal. The intended spirit of this race dictates that the musher be self-sufficient and therefore able to help other mushers in case of real need. No assistance which would result in competitive advantage may be accepted or solicited. Handlers are not allowed on the Yukon Quest Alaska Trail between checkpoints.

30. Demand for Food and Shelter:

A musher may not make demands for food or shelter along the trail or at checkpoints.

31. Sleeping Areas:

No sleeping areas will be provided by YQA at checkpoints on the road system. Mushers will be allowed to sleep in their trucks or set up their own tent at Two Rivers, Mile 101, or Central. No tents are allowed at Circle. Sleeping areas for mushers and mushers only will be designated at Eagle and Chicken. A musher always has the option of sleeping outside by his or her own team and sled. Only these areas may be used.

32. Killing of Game Animals:

In the event that an edible game animal (moose, caribou, elk, etc.) is killed in the defense of life or property, the musher must salvage the meat for human use before proceeding along the trail. A food animal must be gutted. This incident must be reported at the next checkpoint. YQA will make arrangements for further salvage. Any other animal killed in defense of life or property must be reported to an YQA Race Official.

33. Motorized Vehicles:

In no case may a musher accept assistance from any type of motorized vehicle between checkpoints (except as allowed under Rule 46). Pacing is prohibited.

34. Treatment of Dogs:

There will be no cruel or inhumane treatment of dogs. No use of whips will be allowed. Mushers are responsible for the health and welfare of their dogs. The Race Marshal or Race Judges in conjunction with a Race Veterinarian will have absolute authority over the dog teams. Their judgment as to withdrawal of a dog or dogs from the race, or any other conditions relative to dog care on the trail, shall be final.

The health and condition of all dogs will be assessed at every checkpoint. Dogs may not be examined without the musher's knowledge (except for emergencies). Race Veterinarians in conjunction with the Race Marshal or a Race Judge may perform a veterinary exam or detain teams at any checkpoint **or dog drop**. No dog team will leave a checkpoint until the dogs in that team are fit to continue in the race.

35. Care and Feeding of Dogs:

All care and feeding of dogs will be done by the mushers only. Neither force feeding nor stomach tubing is allowed.

Mushers may assist one another between checkpoints. At non-checkpoints, a musher may accept hospitality for themselves only. At no time during the race may a musher house dogs in heated shelters.

36. Dog Minimums and Maximums:

Mushers must start the race with no less than eight dogs and no more than 14 dogs; and must finish with no less than six dogs. Dogs may not be added to a team after the start of the race. An expired dog does not count as a dog for the minimum required.

Only dogs suitable for Arctic travel will be permitted to enter the race.

37. Harnesses:

The neck (and breast panel where applicable) of all harnesses must be padded.

38. Marking/Tagging of Dogs:

All dogs leaving the starting line will be identified by a micro-chip and a current year only YQA collar tag. Legible musher and dog names are required on each collar. Micro-chips are at the musher's expense.

39. Switching of Dogs:

Switching of dogs between teams will not be permitted after they have officially left the start line. Following the issuance of tags and acceptance of dogs for the race by Race Veterinarians, any exchange of dogs by the mushers must be approved by the Race Marshal prior to leaving the starting line.

40. Hauling Dogs:

A musher may not allow any dogs to be hauled by another team. A musher's dogs hauled in the sled must be hauled in a secured, protected, humane manner. All dogs must leave the checkpoint on tow line.

41. Dropped Dogs:

Any injured, fatigued, or sick dogs may be dropped at checkpoints or dog drops, as designated by the Race Marshal, without penalty. Each dropped dog must be left with two days food. Mushers are responsible for providing cable necklines, collars, and proper amounts of food for dropped dogs. The required amount of food is two pound per day per dog. Every dropped dog must be examined by a Race Veterinarian.

Dogs may be dropped for emergency medical reasons between checkpoints and designated dog drops. This action must be reported to the Race Marshal or Race Judge at the next checkpoint, and the driver **may** be subject to an eight hour penalty at the last **designated mandatory stop**, regardless of the number of dogs dropped. The driver remains responsible for that dog (or dogs) and all fees incurred. The dog(s) must be examined by a Race Veterinarian and accounted for within 48 hours or prior to the start of the Finish Banquet, whichever is sooner.

42. Drugs:

The musher must have their dog team free of all prohibited drugs and foreign substances from the time of the Vet Check until released by a Race Veterinarian or Race Official after the team has finished the race. Dogs that are continuing in the race shall not receive any of the following:

1. Any substance by injection
2. Acupuncture
3. Cold laser therapy
4. Corticosteroids or anabolic steroids
5. Any seizure medications
6. Any other treatment or therapy that, in the opinion of the Head Veterinarian, is not in the best interest of a dog that is to continue on in the race.

The Head Veterinarian must be notified of any dogs receiving allowed medication to treat an existing medical problem and a statement from the attending veterinarian describing the diagnosis and treatment must be presented with the YQI health certificate.

YQA Veterinarians or Veterinary Assistants may randomly collect blood and/or urine samples beginning at the Vet Check and up until two hours after a dog team has finished, scratched, or been withdrawn or disqualified from the race. It is the responsibility of the musher to assist the Race Veterinarian or Veterinary Assistant in the collection of the samples. The musher or the musher's handler **must** be present at all times during the taking and sealing of such samples. Documents evidencing the procedure **shall** be signed by the musher or their handler. No person may interfere in any way with the collection of samples or procedures conducted under this rule.

If a Race Veterinarian finds it necessary to treat a dog with a prohibited drug, that dog must be dropped from the race.

The following drugs will be permitted subject to the approval of the official supervising Race Veterinarian:

1. Topical medications without steroids (note: DMSO is no longer allowed).
2. Dewormers
3. Antibiotics (except procaine penicillin)
4. Antidiarrheals (except those with salicylates, i.e. Pepto-Bismol)
5. Omeprazole or Famotidine (e.g. Pepcid or Prilosec)
6. Oral medication, implants and injectable medications used for mis-mating events have potential for severe side effects and should be used under veterinary supervision. All mis-mating injections must be given no later than 28 days prior to race start.

All other drugs and foreign substances are prohibited.

The musher is required to protect and guard their dog team against the administration, either internally or externally, of any foreign substance. **A positive test indicating the presence of a foreign substance shall give rise to a presumption that the musher has failed to meet the duties imposed upon them.**

Fines or penalties levied for violations of this rule shall be based on the seriousness of the offense and will be assessed after completion of the race. The Rules Committee will recommend fines or penalties to the joint Boards of Directors for final decision.

The Racing Commissioners International Uniform Classification of Foreign Substances will serve as a guideline in establishing these penalties which may be as severe as disqualification and censure from future races.

43. Expired Dogs:

The death of any dog may result in the disqualification of the musher, and/or prohibition from entering future races. Any dog that expires during the race for any reason must be taken to the next or just passed checkpoint or dog drop and submitted to the Race Official, or it may be directly submitted to a Race Official at a sooner opportunity. If no Race Official is present, the dog may be submitted to a Race Veterinarian. A necropsy will be performed on all expired dogs by a licensed veterinary pathologist or veterinarian.

44. Unmanageable Team:

Outside assistance will be allowed only if a team is unmanageable. Whether a team is unmanageable will be ruled upon by the Race Marshal or Race Judge in each separate instance.

45. Team Configuration:

There will be no loose leaders; necklines are not required on leaders. All team dogs will be either attached to the towline, no more than two dogs abreast, or humanely hauled in the sled.

Mushers are required to be in possession of functional necklines for the entire team at all times. The use of necklines may be required for individual dogs, individual teams, or all teams, at the discretion of the Race Officials.

Dogs may not be led behind the sled.

46. Lost Team:

A lost team's musher will not be disqualified if the musher regains control of the team. The team and musher must complete the entire race trail including checking in at all checkpoints. Anyone may stop and secure a musher-less team or loose dog. The musher may continue the race after their team is recovered, whether it is on foot, with assistance from another musher or motorized vehicle. Motorized assistance must be reported to a race official at the next checkpoint. If motorized help is used and advantage gained, the Race Marshal may impose appropriate sanctions.

47. Scratch - Withdraw - Disqualification:

All decisions by the Race Marshal and/or Race Judges shall be final.

All Scratched, Withdrawn, and Disqualified teams must have a complete vet check prior to being released from the race. Failure to do so may result in a \$500 fine.

- a) **Scratch** - Mushers wishing to end their participation in the race may do so by filling out and signing a Scratch Form and submitting it to a Race Official or checker. Mushers are responsible for making their own arrangements for retrieving personal gear. Items remaining become the property of YQA.

- b) **Withdraw** - A team may be involuntarily withdrawn from the race by the Race Marshal. This decision would be made to protect the dogs, the musher, or the event itself, and does not imply deliberate misconduct or rule violation. Food drop bags will be immediately removed from checkpoints and a reasonable attempt will be made to return personal gear to the YQA office for retrieval.
- c) **Disqualification** - Failure of a musher to comply with the published Rules of General Race Procedure and/or Trail Procedure may result in disqualification, monetary fine, time penalty, or a combination of these measures. Disqualified mushers will forfeit all placements and monetary values. Food drop bags will be immediately removed from checkpoints and a reasonable attempt will be made to return personal gear to the YQA office for retrieval.

48. Finish:

Mushers must wear their Finish Bib as they cross the Finish Line. Failure to do so will result in a \$250 fine. The time of a team's official finish is when the nose of the first dog crosses the finish line. Any mandatory gear missing at the finish will result in a \$250 fine per missing item.

Dog teams must remain within the finish staging area until all blood and/or urine samples are collected, final veterinary exams are performed, and the vet book is signed by the Race Veterinarian and Musher. The team will then be released by the Race Marshal, a Race Judge, or a Race Veterinarian.

49. Sportsmanship:

The Code of the North dictates all travelers are courteous, helpful, generous and honorable. Conduct yourself well enough so the next musher will be welcomed with equal hospitality.

Rude behavior or inappropriate actions by a musher or handler may result in a penalty, withdrawal, or disqualification. This includes any publication, sharing, posting or comments deemed false, derogatory or negative towards any musher, race personnel, volunteer, the Yukon Quest organization or their supporters. The rule is in effect from musher sign-up until 30 days after the finish banquet.

Any competitor or athlete worthy of the name realizes that all people—officials, volunteers, sponsors, media, and fans—are equal participants in this event, and that it is the musher's responsibility to define the upper limits of human performance. A true Sportsman is an inspiration to all witnesses.
