

WEST HARPETH CHRISTIAN TUTORIAL

Prealgebra

Tutor:

Niki Thiessen

mrsthiessen0710@gmail.com

Prerequisites:

- MS Math or equivalent.
- Students scoring a B or better in a prerequisite class taken at WHCT are not required to take a placement test for the next level class.
- All other students must pass a short placement test prior to registration.

Course Description

Prealgebra is an introduction to Algebra.

It covers topics such as whole numbers, integers, solving equations and problem solving, fractions, mixed numbers, decimals, ratios, proportion, percent, graphing, geometry and measurement, exponents, and polynomials.

Books & Supplies

- **Prealgebra**, 4th Edition
ISBN - 0321756959
- Pencils, blue and red pens, highlighter
- 3-ring binder w/ tabs labeled Notes, Homework, Resources, Tests
- Loose-leaf lined paper and loose-leaf graph paper
- ruler
- calculator such as TI-30X IIS (~\$15)
- MathXLforSchools access code
(provided via lab fee)

Commitment

- This course meets on Tuesdays AND Thursdays.
- Homework will consist of textbook work as well as MathXLforSchools assignments.
- Homework will also consist of filling in definitions and rules and procedures in the fill-in-the-blank notes for the upcoming lesson.
- Students are expected to check answers to odd numbered problems at home.
- All homework is to be completed in pencil.
- Specific details will be provided by tutor.

A typical class will look like...

Class time will include reviewing previous homework and learning new concepts while taking fill-in-the-blank notes.

There will be ample time for practice problems and questions.
