

WEST HARPETH CHRISTIAN TUTORIAL

Digital Photography

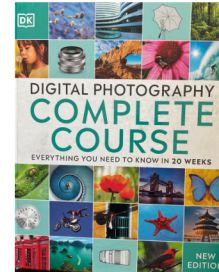

Tutor:

Tammy Wilczek

twilczek@westharpeth.org

Prerequisites:

- This course is open to all students.

Course Description

This course teaches all about the fun and exciting world of digital photography! Build photography skills step-by-step by learning every aspect of digital photography while maximizing artistic talent.

The students will explore a wide range of genres including landscapes, portraits, still life, and action shots as they discover the full range of their camera and learn how to take professional-looking pictures that they will be proud to display at our Student Showcase.

This course will also teach the students photographic jargon such as aperture, exposure, shutter speed, and depth-of-field.

Books & Supplies

- **Digital Photography Complete Course**
 - ISBN 1465436073
- DSLR camera
- SD card
- owner's manual for your camera (print or digital)
- 3-prong two pocket folder
- project supplies provided via lab fee

Commitment

- This course meets once a week.
- 2-3 hours per week of homework
- 4-6 photos will be taken, printed, and brought to class each week. By the end of this course, the students will have a photo portfolio containing all of the homework photos they have taken during the school year.
- Students need to come to class with their homework completed, prepared to discuss and ask any questions they may have.
- Students will do three mounted photograph projects throughout the year.
- **Summer assignment:** Read the owner's manual for their camera and to take some photos in order to begin the year familiar with your camera.
- *Younger middle school students will likely need parental involvement with their homework as this is a High School credit class.*

A typical class will look like...

Class time will be spent reviewing the lessons and analyzing the photographs they have taken for the weekly assignment.
