Course Description

English 6 is where your student will develop their love for reading! This year we have four exciting novels to read (allegory, fantasy, historical fiction, adventure), and we'll discuss the themes and analyze the plot and characters of each book in class.

Our discussions will be lively and thought-provoking! In addition to reading and discussing our books, students will gain a strong foundation in modern English grammar and learn the building blocks of strong writing.

Participating in discussion is part of your grade. We want to hear everyone's perspective, so please be willing to speak up in class!
