

April 14, 2023

Dear Friends and Financial partners,

The pictures above are some very grateful Chimanes who have received a nice solar powered radio with seven 1gb flash drives full of Bible programs. On this next trip (mid-May) we hope to get radios out to many more people. The Chimanes do not live in large groups. They live in family units. We give the radios to responsible people who pass the radios out to people in different areas. They also show them how the radios work.

We need your help to purchase these devices. They cost \$30 apiece plus we send 1gb flash drives in a plastic container with each radio.

How can you help? We have two web sites set up:

<https://ethnos360.org/projects/chimane-conference-center-construction>
<https://ethnos360.org/projects/john-video-translation-and-dubbing>

Prayer requests for this trip:

1. Safe travels
2. Wisdom as we will be working with three language groups on this trip.
3. We desire to purchase radios and get them sent out to the different areas.

We are making good progress on our Conference Center. We lack a fair amount to get it functioning by summer. Thanks for your prayers and support.

Sincerely in Christ our Savior,

Bruce and Jan Johnson
