

June 2023  
Dear Friends,

My Mom is improving steadily. They had a meeting yesterday with the therapists and her case administrator was very positive but they want to keep her until the 27th and then do home therapy.

Thank you for your continued prayers!!

I returned to teaching values and morals at the night school after a long absence due to covid and cancer.

Also Monday night I was asked to preach to the men's group at an area church.

Alexandra, Edgar's wife is due to have the baby boy any day now!! Thank you for your prayers for all of our family.

Yours with Hope for Honduras,

Leslie Priday
