

## Update Bolivia Jan 2024

Dear Friends,

We are off to a great start here in the hot steamy environment of Santa Cruz. It's that time of season midsummer with lots of heat and rain.

We set some goals for this trip. First being the purchase of Solar Radios. We were able to purchase 48 radios, along with 800 microchip SD cards. Loading these cards has taken some time; I am seeing an end in sight.

We are facing some distractions as the enemy sees what is going on. This is a lot of God's Word going out to three language groups.

So far there were major road blocks in various directions, no or very little traffic can move freely. We had a computer issue. Praise the Lord we were able to find an external card reader for copying SD cards.

One of my tribal guys had his laptop stolen, his gas tank for cooking and some other items. The laptop contained a fair amount of recordings we came to edit. They were able to locate the laptop but it was erased. Guess we will be starting over!

Praise the Lord one section of road has opened, and we were able to send out some radios.

Auro who knows the method to send cargo by bus to one town and then by smaller vehicle to a smaller village, then the people who live interior will come out and pick them up by a vehicle which can travel to their village.

Some families have this solar radio along with 15 micro-SD cards. A lot of good Bible programs in their homes.

We are nearing the end of this trip. It's our desire to see all the radios and SD cards sent out before I leave. Thank you all so much for praying for this trip and the goals we would like to see done.

Our new conference center is on its way to good use. Here the viewers are watching the JESUS film in their language. We have several details to complete yet in this building but in the meantime this week they have planned their third Bible conference. We just heard the conference went very well.

Thank you for your precious prayer support. The Holy Spirit is working in their hearts as they listen.

Sincerely in Christ,

Bruce and Jan Johnson
