

August 2024 Update Bolivia,

Can it be? Yes! We are looking at the upcoming month of September to return to Bolivia.

Since our last trip to Bolivia last January, we set a goal of having 60 solar radios on hand before returning to Bolivia. Praise the Lord that goal is met! We set a goal of getting 1,000 microchips to send out with 60 radios. The last 200 microchips arrived at our house last week. That is a lot of little chips!

Are you hungry? During a small Bible conference, after some eternal spiritual food, it's time for some physical food. Line up and be served! Both foods are FREE - one lasts forever and the other keeps us receiving more opportunities to hear about the eternal food.

I see many contrasts here compared to our lives. Some walk and some fly from one point to another. Solar radios are delivered by plane to these isolated families so they also can hear the PRECIOUS words of HOPE.

The reason for going is to deliver the message. We are very grateful for your prayers and financial help to see these precious people reached with the Word of God.

Prayer requests:

1. A safe and smooth trip to Bolivia and back
2. That the 60 radios will get to the right families
3. Pray for opportunities to serve others

Please check out our three web sites and see how you can help:
