08 December 2025

The situation as of December 8, 2025 of the District of Peachland wanting to acquire our property.

After our October 16, 2025 response to the District regarding the church leadership meeting with representatives of the District, the District presented a proposal on November 13, 2025 which included moving our building to possible sites in our area. The church leadership replied with a counter proposal on November 17, 2025.

On December 2, 2025 the District responded to our counter proposal, rejecting it. The District went on to say,

“In the circumstances, we will be proceeding with our process to secure a partner that can deliver a creative solution that meets the community of Peachland needs and your congregation’s needs.”

The church leadership’s response to the District on December 8, 2025 was,

“Thank you for your December 2, 2025 letter in response to the church’s counterproposal of November 17, 2025 to the District’s proposal of November 13, 2025 regarding a possible land swap and relocation of the church building.

You have stated you have rejected our counter proposal and are proceeding with your process to secure a partner to find a solution for your needs.

We welcome the decision that the District now is looking at options that do not involve the purchase or expropriation of the church’s property.”
