FEATURING SunComfortable™
HEAT-MITIGATING TECHNOLOGY*

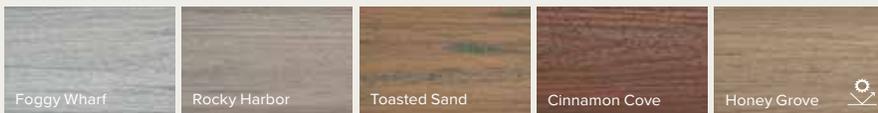

— Indicates SunComfortable™ Products

*Our SunComfortable™ products with heat-mitigating technology are designed to be cooler than most other composite decking products of a similar color. Although engineered to be more comfortable, they can still get hot to the touch when direct sunlight and high temperatures converge for extended periods of time. On such days, care should be taken.

Trex Enhance® Naturals

YEARS

Trex®

Just like the rest of the Trex® decking collection, these new colors in the Select® decking line are 100% submersible and approved for all water-contact applications.

Marine-grade performance combined with SunComfortable™ heat-mitigating technology makes for an ideal solution for docks and marinas.

Available in 2x6 for greater spans.

Malted Barley

Whiskey Barrel

Millstone
