Universität Bonn

● **Bachelor Degree in Humanistic Studies**

University of Florence   Oct 2009 - Jul 2012

Extracurricular Activities

I organized cultural events and punk shows in non-profit organizations for years (I learned how to handle a budget, how to make everything happen on time, how to communicate with a public - I also sometimes illustrated/curated posters, logos, tshirts & graphics). I translated (EN>IT) part of the book "Miti e Molotov - Interviste su Anarchia e Narrativa". I like to print my own artworks and sell them in little markets focusing on self-productions. I played piano for 10 years and learnt guitar by myself. Currently I'm trying to approach electronic music, curating dj-sets in small private parties. I recently started to learn arabic. This spring (2024), I volunteered as a language tutor enrolling the Sistech programme, helping refugee women to find a place in the tech industry in Italy.
