Territorial Waters
MARINE SERVICES

CAPABILITY STATEMENT

Reliable, safe, and local maritime expertise since 2006

Territorial Waters provides small vessel, crew, and operational support for marine, environmental, and industrial projects across Darwin Harbour. With decades of experience supporting maritime operations across the Northern Territory, our deep regional knowledge of local waters - tidal systems, weather patterns, marine ecology and cultural considerations - means we deliver safe, effective and tailored solutions.

Environmental, scientific and cultural projects:

- Water sampling
- Sediment sampling
- Marine ecology monitoring
- Seabed and grab sampling
- Cultural heritage surveys
- Geophysical surveys
- Bathymetric surveys

Dive, special project, and marine operations:

- Commercial diving support
- ROV operations
- Equipment deployment
- Film and TV production
- Wildlife spotting
- Research projects
- Custom charter operations

CAPABILITY STATEMENT

MV Scout is a trailer boat designed for ease of use with one or two crew. It has ample deck and storage space including forward deck and aft centre console, with all safety and communication equipment.

Durable and manoeuvrable, MV Scout is suitable for blue water, in-Harbour, shallow water and estuary operations including animal spotting, confined survey work, water and sediment environmental sampling, crew transfers and commercial/recreational diving and fishing.

Specifications:

- Length: 5.99 m
- Breadth: 2.5 m
- Draft: 0.3 m
- Engine: Suzuki DF175
- 12" GPS Lawrence HD sounder/plotter
- Top Speed: 25 knots
- Fuel: 140 L
- Capacity:
5 passengers + 1 crew
- **Survey: USL Class 2D**

Features:

- Davit arm
- Aft centre console
- Dive ladder
- Saltwater deck wash
- Shade biminy and carpeted deck
- Under-deck storage
- Permanent rubber side strip fenders
- 200 litre esky
- Casting deck
- Full safety equipment
