

THE LAW OF UNDERSTANDING

By: Fountain Hendricks

Proverbs 4:7

Understanding is not something you inherit. It is something you **PURSUE**. The inception of knowledge does not mean you have received understanding. Knowledge makes you aware that you need understanding.

Attaining an education does not guarantee understanding. Being taught by a teacher will not ensure you will receive understanding. Gaining experience will not solidify you will receive understanding.

HERE'S WHAT I MEAN

- There are people who have extensive education yet, they **CANNOT** understand how to succeed in Corporate America.
- There are people who are talented athletes and **CANNOT** understand how to win a championship.
- There are people who know how to preach yet, have **NO** understanding about the Kingdom of God.
- There are people who are very attractive, however, they **CANNOT** understand how to keep a healthy relationship.

Listed below is a powerful wisdom key you should apply effective immediately.

**KNOWLEDGE COMES BY HEARING.
UNDERSTANDING COMES BY STUDYING.**

STUDY TO GET UNDERSTANDING!

God is not obligated to give you understanding. As a matter of fact, the Lord never told you that He would give you understanding. He told **YOU** to **GET** understanding.

Proverbs 4:7 says, "Wisdom is the principal thing; therefore get wisdom: and with all thy getting get understanding."

It is **YOUR** responsibility to get understanding. It is your obligation to get understanding. If you do not get understanding you will remain frustrated.

Knowledge destroys ignorance. However, understanding **DESTROYS FRUSTRATION**. Having the awareness to do something does not mean you have the know how.

Knowing you need to get your oil change in your car does not mean you know how to change the oil.

Knowing you need to upgrade the tile in your house does not mean you know how to do it. The law of

understanding empowers you to destroy the feeling of frustration. You are not frustrated with things you know how to do.

Once you receive knowledge on what to do you need to **STUDY** to learn how it works. The more you study on the knowledge you acquired, the greater your understanding will increase.

There are rewards and blessings that come with understanding that knowledge cannot give you. When you **GET** understanding you will **AUTOMATICALLY** receive...

- **CONFIDENCE** in yourself and abilities.
- **CREDIBILITY** from your peers.
- **HONOR** and **ADMIRATION** from the public.
- **RECOGNITION** of your work and insight.
- **OPPORTUNITIES** to advance.
- **RESPONSIBILITIES** from your boss to enhance your value at your job.

- **REWARDS**, proving how highly accomplished you are.
- **PRIVILEGES** to give you the advantage over other people.
- **HIGH QUALITY** results.
- **ANSWERS** to destroy the feeling of frustration.

Getting understanding can give you more than you ever dreamed. You probably received some of these things but did not realize how you got them. Well, now you know.

Knowing **HOW** you got to your destination makes it easier to get there again. **YOU** decide how far you will go in life or if you go anywhere. Getting understanding in what is important, essential and vital will help influence your impact on life.
