

# THE LAW OF APPLICATION

By: Fountain Hendricks

Proverbs 4:7

The law of application is simply **APPLYING** what you **KNOW**. People who do not apply what they know are educated fools and arm chair professors. These people are filled with knowledge yet void action.

These people fool themselves into thinking they are living righteously because of their knowledge base. This is far from the truth. Knowledge **WITHOUT** application means nothing.

The three most important mental components  
in life are knowledge, understanding and  
wisdom.

- Knowledge is **INFORMATION**.
- Understanding is **COMPREHENSION**.
- Wisdom is **APPLICATION**.

The purpose of wisdom is to **MATERIALIZE** what you have gathered. Life will not get better for you if you are void of wisdom (application). You will not move forward faster if you lack wisdom.

Have you met people who are smart, yet stupid? Have you met people who are intelligent, yet lazy? These people know what to do but don't do it. What is stopping them? What is preventing them from using the wisdom they've gathered through their study of knowledge?

The answer is simple. They think knowledge and understanding are enough to win in life when it's not. Without wisdom you will **NEVER ATTAIN** what you've learned!

## THE LAW OF APPLICATION

The law of application is simple. **WHAT YOU KNOW, YOU DO!** It's that easy. However, very difficult for people to follow. Think about it. Many people know to exercise and eat right. However, we have an abundance of people who are overweight and stricken with diabetes.

Many people know not to live above their means. However, there are many people who do the opposite and are drowning in debt. Many people know to obey the Lord. However, plenty of people disobey Him and receive His punishment.

When you do not do what you know you are violating the law of application. People who honor the law of application and **APPLY** what they know go from bad to good, good to great and great to phenomenal.

Attaining new knowledge and increasing in understanding will position you to live a higher quality of life when

you've **APPLIED WHAT YOU LEARNED**. Stop sitting on new knowledge. Stop storing greater understanding.

People who violate the law of application do things similar to these examples. They have keys to a house and never open the lock. They have the skill set to get a job but do not fill out the application.

They have the money to get out of debt but spend it foolishly. They have the influence to make a difference, yet say nothing. They have access to quality mentors but do not listen to them.

These intangible assets are resources to help you. When God allows you to broaden your perspective, **APPLY WHAT LEARNED**. When God sends people into your life to teach you something you never knew, **APPLY WHAT YOU LEARNED**.

In the Information Age we currently live in there is no limit to how far you can go. The formula is very simple. If you

want more, learn more so you can apply more! God has already given you everything you need. You need to **USE** what He gave you.

Proverbs 4:7 says, "*Wisdom is the principal thing; therefore get wisdom: and with all thy getting get understanding.*"

Wisdom is the most important thing on the earth.

Learning **HOW** to apply what you know, learning **WHEN** to apply what you know, learning **WHERE** to apply what you know and **WHY** you should apply it is a treasure unto your life.

**YOU CANNOT DO BETTER UNTIL YOU  
APPLY WHAT YOU'VE LEARNED.**
