

# 20 LAWS ABOUT TIME

By: Fountain Hendricks

Ecclesiastes 3:1-8

Time is valuable. Time is fragile. Time is not bias. Time is life and life is time. Listed below are twenty laws about time. These laws will explain the benefits and liabilities of how time works.

Laws are indisputable acts that will happen with or without your permission. People who honor Kingdom laws will be blessed if they obey them. People who dishonor these laws will be punished.

Ecclesiastes 3:1-8 explains how there is a season for everything. In every season, time is sacred. If you understand it, it will become your friend. If you do not understand it, it will become your enemy.

## KINGDOM LAWS ON TIME

- **TIME IS THE PLAYING FIELD THAT IS ALWAYS FAIR:** A billionaire and a beggar both have time. Time does not distinguish who is successful or not. Time provides people with the opportunity to be successful, which makes it a level playing ground for everyone.
- **TIME IS A UNIVERSAL RESOURCE:** Time is a resource that is given to everyone. Everyone knows it. Everyone sees it. Everyone has it and everyone **USES** it.
- **EVERYONE IS GIVEN TIME:** Everyone is gifted with time. How you manage it is up to you.
- **TIME IS NOT BAD OR GOOD, IT'S AVAILABLE:** Time is neutral to everyone. When it is mismanaged it becomes your enemy and when it is utilized wisely it becomes your greatest asset. However, time is **ALWAYS** available.

- **TIME BRINGS RELIEF:** When life becomes overwhelming and circumstances become challenging, taking a break from the routine can add relief. Using time in this way brings relief.
- **TIME PROTECTS YOU FROM FOREVER:** Can you imagine having a headache forever? Can you imagine having back pain forever? Time brings an end to all things that are good and bad. Time funnels the cycle of change and protects us from forever.
- **YOU ARE A PRODUCT OF HOW YOU USE YOUR TIME:** You are the byproduct of your time usage. If you have much, that is a reflection of your productivity. If you have little it shows how you wasted time. Time does not lie. You are what you have given your time to.
- **TIME CANNOT BE STOPPED:** Despite what you do or don't do, time cannot be stopped. It goes on with

you or without you so make the most of it. Everyone is a slave to time!

- **TIME IS NOT BIASED:** Time does not favor people. It favors wisdom! If you use time wisely you will prosper. If you use time poorly you will become a failure.
- **TIME CANNOT BE CONTROLLED, ONLY MANAGED:** You cannot control time because we are bound by it. It rules us. We do not rule it. However, you can manage it and make it work for you. If you cannot control something the next best thing is to manage it.
- **TIME GIVES HOPE:** Nothing stays the same. Nothing last forever on the earth. Time provides hope because it guarantees an end to a bad thing and a new beginning to a good thing.
- **TIME IS CURRENCY:** Time is money. It could be spent to accrue value. If you use time to exert labor it

produces money. If you use it to advertise a product it will attract customers. If you use it to study a skill it will create value.

- **TIME IS A BLOCK OF OPPORTUNITY:** When time becomes available an opportunity has emerged to do something great or needed. Opportunity is time and time is opportunity.
- **THE UTILIZATION OF TIME INCREASES OR DECREASES VALUE:** How you utilize time will determine the appreciation or depreciation of value. For example, if you use time to attain an education your knowledge base will become valuable to an employer. If you use time to do foolish things your self value will be depreciated because you have nothing to offer.
- **EVERYONE IS IMPRISONED BY TIME:** We are all slaves to time. We are bound by it, trapped in it and forced to honor it.

- **TIME IS A GIFT FROM GOD:** Time is a gift because it is something we did not ask for, yet it greatly benefits us. When you see time as a gift you will treat it as a fragile asset. Time can easily be lost. However, it is highly valuable.
- **TIME IS LIFE AND LIFE IS TIME:** Life is an accumulation of time. What you become in your life is determined by how you spend your time. It is impossible to separate the two.
- **THE PURPOSE OF TIME IS TO BE CONVERTED INTO VALUE:** If time is used wisely, producing value will be the result. For example, spending four years in college to attain a degree that will allow you to make a good salary to support your family is time converted into value.
- **TIME CAN BE ABUSED:** When you are mismanaging your time you are abusing it.

- **TIME FREES YOU FROM LIVING IN THE PAST:** Time gives you the option and possibility of moving forward. There will always be another day. You will never be imprisoned under the same hour. Time forces the mistakes of your past to stay behind you.
