

WISDOM JOURNAL

DAY 82

SUBJECT: WHEN I BELIEVED IN ME

Belief is a powerful thing! Nothing happens when unbelief is present. Nothing moves when unbelief is present. I went through a season in my life where complacency and stagnation had me shackled to the struggles of life.

I didn't realize it at the time, but I stop believing in my God given potential and started settling in the opinions of people. This was one of the worst mistakes I'd made because it was preventable and avoidable.

Nevertheless, I allowed it to happen. Settling in the opinions of other people destroyed the belief I had in myself. I was wondering why nothing was changing in my life. Well, it was because of me. I learned that **NOTHING CHANGES UNTIL YOU CHANGE IT.**

If you don't believe things will get better they won't. If you don't believe you can have more you won't get it. The power of belief **MOVES YOU TO ACTION**. When I started believing that nothing is impossible that's when I started making a six figure income.

When I started believing that nothing is improbable that's when I started traveling domestically and internationally. When I started believing, that is when I started walking in positions of power, authority and influence.

PEOPLE WHO BELIEVE ARE UNSTOPPABLE!

People who have accessed the power of belief do not make excuses, they make **PLANS**. They do not accept limitations, they break boundaries. They do not wait for things to happen, they make things happen.

Philippians 4:13 says, *"I can do all things through Christ, because he gives me strength."* NCV.

TAKEAWAY: The beginning of change is believing that it can happen.
