

IMAGINATION IS THE NEW CURRENCY

By: Fountain Hendricks

Mathew 19:26

We are living in a day and age where manual labor is becoming obsolete and human capital is becoming less efficient. Artificial Intelligence is changing everything. It is touching and affecting every industry.

NOTHING IS EXEMPT! Products like ChatGPT, Dalle, AI Synthesizer, etc. are changing how messages, answers and solutions are being communicated and generated. It has been predicted that in the next ten years Artificial Intelligence will replace three hundred million jobs.

This prediction seems to be accurate. With these phenomenal tools being created the traditional way of making money and conducting business is being eradicated right before our very eyes.

Artificial Intelligence is becoming the **FOUNDATIONAL CORE** of how people are conducting business. People are not going to rely on your muscle, grit and sweat to do business. This next era of business is going to focus on one thing...**IMAGINATION!**

THINK OUTSIDE OF THE BOX

If you have ever used any of the tools of Artificial Intelligence you will know that it responds based on the **QUESTIONS AND COMMENTS YOU** provide to it. In other words, ChatGPT, Dalle and other tools becomes as valuable as the **THOUGHTS IN YOUR HEAD.**

If you think like a chicken, artificial intelligence will grant you responses based on your thoughts. If you think like an eagle it will give you responses on a genius level.

What can you imagine?

Can you imagine an orange earth and blue grass?

Sounds outrageous? Maybe. However, it is this type of

thinking that will empower you to become leaders in this **NEW** age of business.

Can you imagine running a multimillion dollar business with only one employee? Sounds impossible? Maybe. However, it is the people who have an outrageous imagination that will travel to uncharted places.

King Jesus said it this way. Mathew 19:26 says, "*Jesus looked at them and said, "With man this is impossible, but with God all things are possible."* It is God who gives you the **VISION** to envision a world that others cannot dream of.

All things become possible **WITH** God because **ALL** secrets to **ALL** things are in Him. Every method, strategy and resource resides **IN** God. When He is with you and you are compliant with His will He will give you **ACCESS** to everything in His treasure chest.

Deuteronomy 29:29 says, *"The secret things belong to the Lord our God, but the things revealed belong to us and to our children forever, that we may follow all the words of this law."*

The solutions to the problems that have you scratching your head are locked in your imagination. **ANYTHING** you can imagine is possible. Do not let the reality of this world rob you of the potential of your imagination.

The enemy convinces you that your reality is your limitation. Unfortunately, many people believe this. Reality is an **EXTENSION** of your imagination. Your imagination is your limitation.

Your imagination starts with an **IMAGE** in your mind. That image is a seed to infinite possibilities. Those possibilities can come forth through your ability and your ability will manifest your reality.

Wealth, freedom, power, resources, etc. are going to be dependent on the quality of your imagination in this next era. The bigger your dreams are the more money you will make. The bigger your imagination, the more things you can create. Blue grass and green skies is only silly until someone makes sense of it.

EVERYTHING NEW SOUNDS WEIRD UNTIL IT'S DONE.

Here's what I mean:

- Finding love through a computer was silly until someone made sense of it.
- Fueling cars with electricity instead of fuel was silly until Elon Musk made sense of it.
- Replacing human labor with robots sounded silly until artificial intelligence made sense of it.

- Cars flying through the air sounded silly until new innovations were created in 2023.
