

LAZY PEOPLE WILL BE POOR

By: Fountain Hendricks

Proverbs 10:4

The first thought of a lazy person is someone who does nothing and who is going nowhere. This is true yet incomplete. Laziness is a very broad term that includes multiple behavior patterns.

A lazy person can lay on the couch all day or they can also work a 9-5. Laziness is a **PHYSICAL** and **MENTAL** disposition that a person takes on. Proverbs 10:4 says, "*A lazy person will end up poor, but a hard worker will become rich.*" NCV.

The ending destination for people who are lazy is **POVERTY**. Lazy people may start by having something. However, in the **END** they will **LOSE** it because that is the promise of the Kingdom of God.

THE ABUNDANCE OF POVERTY

Why do you think there is an abundance of poverty in the world? Because the spirit of laziness is exponential in this world. According to the dictionary, the synonyms for the word lazy consist of being...

CARELESS

INATTENTIVE

INDIFFERENT

LACKADAISICAL

LETHARGIC

PASSIVE

PROCRASTINATING

SLOTHFUL

APATHETIC

These adjectives listed above apply to people who do nothing and to people who work a job everyday. It is possible to work hard in multiple areas of your life, yet be lazy in one specific area. This Kingdom principle is

activated when you **CHOOSE** to be lazy in whatever area of your life you decide.

If you choose to be passive about your finances you will **END** up broke. If you choose to be indifferent about your career you will **END** up unhappy and dissatisfied with your lifestyle. If you choose to procrastinate in studying the Bible you will **END** up going to hell.

If you choose to be careless about how you take care of your home you will **END** up paying for more unnecessary repairs later. If you choose to be lackadaisical about exercising and eating right you will **END** up having poor health. If you choose to be apathetic toward getting clients for your business, you won't have any customers.

The spirit of laziness comes in many forms. This is why poverty will never be eradicated. As long as people **CHOOSE** to be lazy, poverty will **ALWAYS** be present. The question remains, what areas have you chosen to be lazy in?

Whatever area that is, that is the source of your poverty!
If you are tired of living in lack, **STOP BEING LAZY**. Get
up and move. Be consistent! Produce action! Remember
this wisdom key. **MOVEMENT** creates progress. Progress
creates change. Change invites opportunity and
opportunity attracts prosperity.
