By: Fountain Hendricks

Genesis 2:15

The umbrella of management covers a **MULTITUDE** of **SKILLS** that helps people become effective managers in the Kingdom of God. These skills that you are about to read about are what God looks at when He is deciding who should be entrusted with His earthly resources.

God's earthly resources are His people, real estate, money, authority, power, influence, etc. These resources enable God's will to move forward on the earth. The Lord's priority is to bring His Kingdom to the earth.

His Kingdom must be **MANAGED**! The first manager in God's Kingdom was Adam. Adam was created for the

purpose of managing the Kingdom of God. God created a garden with all of the resources needed to sustain it.

Genesis 2:15 says, "*The Lord God put the man in the garden of Eden to care for it and work it.*" Adam had one job. He was suppose to **MANAGE** what God gave him. With that responsibility came skills that Adam attained innately. These skills enabled him to become an effective manager over God's resources.
