

REGION 1

CHAMPIONSHIPS

2024

MESA,
ARIZONA

To All Region 1 Championships Attendees!

It is my pleasure to extend a warm welcome to all of the gymnasts, coaches, officials and spectators to 2024 Men's Region 1 Championships!

I would like to congratulate all of the gymnasts who qualified to this year's Region 1 Championships. Through your hard work, dedication, commitment and sacrifice you have earned your spot to compete at the most prestigious regional event in the country! I wish all of you success in your future challenges, and hope you are successful in the pursuit of your goals and dreams. Whether your goals are the pursuit of athletic excellence or excellence in life, I wish you the best. I commend all of your coaches who share in that goal and vision. Their commitment is incredible.

Lastly, but definitely not least, are your parents. Do not forget to thank them (often), for without them (and all that they do) none of this would be possible!

I would especially like to thank Scott Barclay (our Meet Director) and Arizona State Men's Gymnastics for taking on this Event at such a late date. Scott and his team are no strangers to this meet so you can look forward to a great Event here in Arizona. I would also like to thank the many volunteers, event staff, friends and family members who make running an event of this magnitude possible.

I wish all of the competing gymnasts here this week the best of luck for a safe and successful competition!

Sincerely,

Tim Klemptauer
USA Gymnastics Men's Region 1 Chairman

NOTES

1. **State All Star Teams** take place in each session.
2. **Club Team Awards** are one award per LEVEL (banners for top 3 teams). If a level is split between 2 sessions, the Club Team Award is awarded after the second session for that level.
3. The Region 1 **Level 10JN All Star teams** will be the top 5 Level 10JN gymnasts in each age division (16-17 and 18-19) based on AA score. They will compete in the Regional Team session at Dev Nat.
4. **We have a new format this year.**
Old Format - A warm-up gym and a competition gym (with 2 flights, A & B). Gymnasts would warm up in a warm-up gym on one set of equipment and then go out to a competition gym and compete on another set of equipment.
NEW Format - 2 competition gyms. Gymnasts will still be in 2 flights (A & B), but they will now warm-up on the same equipment they compete on!
Competition Gym A is the left gym, **Competition Gym B** is the right gym (from the audience).

The Benefits and Opportunities of College Club Gymnastics

By: **Scott Barclay- Head Coach**
Arizona State, 1st President of GymACT

It takes a special kind of athlete to be a gymnast. It takes an equally dedicated and understanding family to have one of their own in this sport. Most likely you got into this sport because it was a fun activity or your parents put you into it to “burn off energy”. But now.... you are coming to a fork in the road where you will need to decide where and IF you will be doing gymnastics in college. It is most likely one of the biggest decisions you will make up to this point in your life. So here is a little more info to help you in your decision-making process.

I have had the great benefit of coaching for 15 years on the NCAA level (assistant coach at Arizona State University, ‘78- ‘93) and for the past 30 years on the College Club level (ASU since 1993). Let me first say that BOTH systems have their advantages and disadvantages, opportunities, challenges and strengths. There is no doubt about it, that the greatest college meet in the world is our own NCAA championships each and every year. Even though our total number of NCAA teams has dwindled from 176 in the 70’s to only 13 today (with 2 more D3 programs slated to start up next year!), the quality of the NCAA Championship has continued to get BETTER each year! So if you are intent on being a part of the highest quality and most competitive program, the NCAA is the way to go. But... as you can imagine, there are only a very few spots open on the NCAA level each year for junior gymnasts to step into. SO ... if you aren’t offered a scholarship or even a walk-on position, what are your options?

This is where the Gymnastics Association of College Teams (GymACT) comes in. There are over 2 million college students engaged in a variety of club sports across the country each year, and that number continues to grow. As does the number of college club gymnasts.

Why is this?

Right now there are a handful of college clubs that are dedicated to excellence in training. I have been asked many times what the main differences are between GymACT and NCAA teams. My answer to them is, “we are basically the same except for TWO things.... 1) we are not funded by the school and 2) we cannot compete at the NCAA championships.” Now admittedly, not being supported financially by the university has many other ramifications such as: No (or very limited) scholarships, access to medical facilities & supplies and academic support. So why even consider being a part of a college club team?

Because of the **OPPORTUNITIES!**

I will always encourage anyone that if they are serious and passionate about this sport and they can get a scholarship to a school they like... TAKE IT! It is the best opportunity around. But if you can’t, THERE ARE SOME GREAT, and GROWING number of OPPORTUNITIES within the GymACT Team programs to enable you to reach your academic goals and pursue your passion of continuing to grow as a gymnast. Remember, guys begin to reach their full gymnastics maturity most of the time between 18 and 24 years of age. So if you didn’t win the JO Nationals title as a senior in high school, you still have a long way to go in pursuing your dreams!

I believe Club Gymnastics offers the following 2 great benefits:

- *Keeping Dreams Alive &*
- *Providing Opportunities*

Being a part of a collegiate gymnastics program (whether NCAA or GymACT) provides opportunities for junior gymnasts to continue the sport they love while pursuing an education for life. Here are 7 benefits you can expect to get out of being a part of a college team:

1. College education- This is what opens doors for you to the future
2. Continuing in gymnastics- The college years for male gymnasts are when men mature and really benefit from all the basic training they invested to this point. (I.e.- strength, skills & experience all come together). Develop your potential!
3. Friendships- and lifelong relationships are forged.
4. Regular Season Competitions- between other Collegiate and NCAA teams.
5. National individual and team championship competition.
6. Individual Growth.
7. Being a part of a team of guys all pursuing the same common goals- This is probably the greatest benefit you can realize as a collegiate gymnast. Scholarship or not, get into the right program for your ability and this is yours!

As I have observed over the last 29 years, there has developed a 3-tiered college system of teams that has taken root:

- **NCAA Teams**: Generally funded by the university. Most offer scholarships, medical and academic support. Needless to say, that with a maximum of only 6.3 scholarships that can be offered per school, the odds are not very good in getting a scholarship unless you are one of the top juniors in the country. There are currently 13 NCAA teams.
- **GymACT Teams**: Those club teams that have demonstrated a desire to compete on a level that can “hang” with other NCAA teams. Generally non-funded by the school and have to raise all their own operating expenses (training, competition, coaching, etc.) through fund-raising and booster clubs. Most of these teams have a dedicated coaching staff. The year-end Championship for this tier is the GymACT Nationals Team Championships on Saturday night of the USAG JD Nationals- this year in Mesa, Arizona. We also have our separate Event Nationals as part of the USAG Collegiate Nationals. No limit as to the number of participants and each school sets their own participation criteria. (In order to be on the Arizona team one must agree to 1) be at practice as agreed upon, 2) help with fund-raising events & 3) be dedicated to the basic team training principles). Currently 14 teams.
- **NAIGC Teams**: Similar to GymACT teams but mostly student led and coached. The main Championships for these teams are the NAIGC Men’s & Women’s Nationals- A rapidly growing yearly championship meet. Approximately 60+ teams. www.NAIGC.org

Whatever your level and whatever your dreams, there is a college program out there for you. Check out the team’s websites and call around. The goal is to keep on developing your abilities in a team context that enhances your growth and potential. Enjoy the “Journey”!

“We miss you Hiroshi”

Hiroshi Fujimoto passed away peacefully on February 28, 2014 following a courageous battle with cancer.

He was born March 31, 1949 to Yasushi and Toshiko Fujimoto in Tokyo, Japan. At the age of 14 Hiroshi immigrated to San Diego to live with his aunt, Sue Harper and her family. In 1967, he graduated from Hollywood High School and went on to CSU Los Angeles where he was an outstanding gymnast.

In the early 1970s he came to Monterey and was hired by Dr. Gordon Schacher to teach and coach the Monterey Peninsula Gymnastics Club. In 1976 he founded the Monterey Gymnastics Center on Dela Vina Avenue in Monterey with Dr. Schacher, Rick Johnson and Gloria Elber. In the ensuing years, the Center became a dynamic force in the gymnastics world, teaching thousands of Monterey Peninsula young people, and coaching competitive gymnasts to local, state, regional and national championship levels. Hiroshi taught gymnastics classes at the Center and at Monterey Peninsula College, where his evening classes attracted beginning, and intermediate level students, many of whom went on to train and compete at the Center. Years later many of these early students returned to Monterey Peninsula Gymnastics Center to have their own children and grandchildren be coached by Hiroshi.

Hiroshi also was a force in the world of gymnastics competition throughout the Western United States. He was State Chair of the Northern California Boys Gymnastics Association and USA Gymnastics Region 1 Chairman. His expertise in coaching and distinctive quiet and calm demeanor were well recognized throughout the sport. Over the years, Monterey Gymnastics Center was a favorite spot for both national and international level gymnasts and Olympic athletes to visit and workout with Hiroshi.

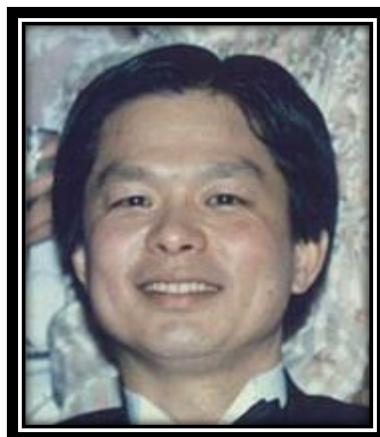

After over 30 years at the Monterey location, Hiroshi moved the Center to its present location in Sand City. Along with Head Coach and Program Director, Jessica Rodriguez, the new center grew and continued its long legacy of excellence and commitment to Monterey Peninsula youth. It is now the oldest privately owned gymnastics center in the United States.

Hiroshi is survived by his parents, Yasushi and Toshiko Fujimoto; his sister, Yuki (Ararata) Kamochi; nephew, Ken and niece, Lisa, all of Tokyo; his beloved aunt, Sue Ruddy (Jim) of Palm Springs and his cousins (far more like brothers), Michael (Daria) Harper of Valencia and their children, Shane and Christen; Mark Harper (Chieko) and children, Erika, Ellena and Emma of Denver, Colorado; Scott Harper of Los Angeles; his longtime friends, Rick and Chris Johnson and their sons, Tyler and Oliver of Monterey; and Jessica Rodriguez and Edgar Marin and their young son, Maddox, who called him "Papa."

Hiroshi is also survived by the many gymnasts and their families, whose lives were forever changed by his goodness, quiet strength and commitment to others.

***I wish to die in the spring,
beneath the cherry blossoms,
while the springtime moon is full.***

~Sayio (1190)

“Hiroshi's physical self is gone, but our memories, our love for Hiroshi, and his spirit will live on in us.”

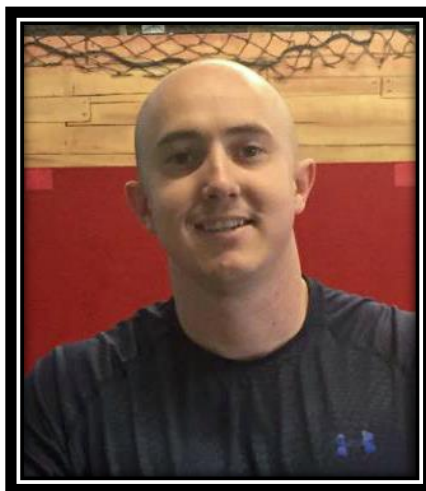

Hiroshi Fujimoto

RECOGNITION AWARD

This award is handed out each year at the Men's Region 1 Championships. The recipient of the award is a person in the Region who has given of himself/herself above and beyond other members of Region 1. This award is in recognition of selflessness of the recipient in either the prior year, or in a cumulative basis throughout many years. This award is the most prestigious award given to a member of our Region 1 Men's Gymnastics community. It reflects the dedication of that years' recipient to the development, administration, vision and/or quality of men's gymnastics in Region 1 in the spirit of Hiroshi Fujimoto's contribution to our Region.

The 2024 Hiroshi Fujimoto
Recognition Award
is presented to:
Adam Lomax

Adam began gymnastics at the spry age of three when his mother decided to enroll him in his first gymnastics class and he never looked back. Adam spent his formative gymnastics career under the tutelage of Steve Butcher who instilled work ethic, determination, positivity and a growth mind set. Adam's love of the of the sport never wavered, transitioning from a nearly 15-year competitive career right into competitive team coaching.

Adam began his competitive coaching career more than two decades ago at SCEGA gymnastics in Temecula, CA. During his time there he coached athletes to more than 100 state, regional and national titles as well as more than a dozen athletes to the U.S. Future Star and Junior National Teams.

In 2019, Adam fulfilled his dream of becoming a gymnastics club owner when he started Agility Kids in Temecula, CA. Adam's recent athletes include the 2023 Xfinity US National Champion and four **Team USA International Competitions** to include **5 Gold Medals, 4 Silver Medals & 2 bronze medals!**

Adam has been a part of the SCMGA (SoCal) board of directors and the Region 1 Board for more than 15 years. In 2016 Adam was appointed to the Region 1 Chairman position (for 6 years). Adam is currently serving as the Vice Chairman for the Region 1 Board. During his tenure as chairman, Adam organized 2 International Train Aways for more than 40 Region 1 athletes combined to Tatabanya, Hungary in 2017 and 2019! Adam is currently on the USAG Jr National Coaching Staff (2014-2020 & 2023-Present). He has been a nationally rated judge for 18 years and is a frequent presenter at the USA National Congress & National Coaches Workshop.

MEN'S ARTISTIC GYMNASTICS

Sam Mikulak

2012 & 2016 Olympian

2013-2016 National
All-Around Champion

There are six events in men's gymnastics — floor exercise, pommel horse, still rings, vault, parallel bars and horizontal bar. This discipline requires an incredible amount of strength and power. Below is information on each of the six events.

FLOOR EXERCISE

Floor routines consist of dynamic tumbling skills. The best gymnasts will incorporate tumbling passes with multiple twisting and flipping, both forward and backward, throughout their routine. A gymnast must show power and control on this event.

POMMEL HORSE

Considered by many to be the most difficult of all men's events, the pommel horse is also the most subtle. Each move is defined by complex hand placements. The gymnast must perform continuous circular movements interrupted only by the required scissors elements. The entire exercise should flow with controlled rhythm. A gymnast must show precise timing and balance throughout the routine.

STILL RINGS

Of all the men's events, rings are the least stable, therefore requiring the greatest amount of strength. Just as its name suggests, the rings must be kept still while the gymnast is performing. There are two types of moves on the rings — strength positions and swing movements. Those with the best command of the event will display extraordinary skill in arriving at all required "holds" with absolute precision.

VAULT

Each vault is categorized in the Code of Points, the official rule book giving the relevant value of each skill performed. A good vault is sometimes described as a "big" vault. The more twists and flips in the "post" flight, the more difficult the vault. The height, the distance of travel, the overall acceleration into the vault and the sudden impact of a no-step, "stuck" landing all create a good impression for the judges.

PARALLEL BARS

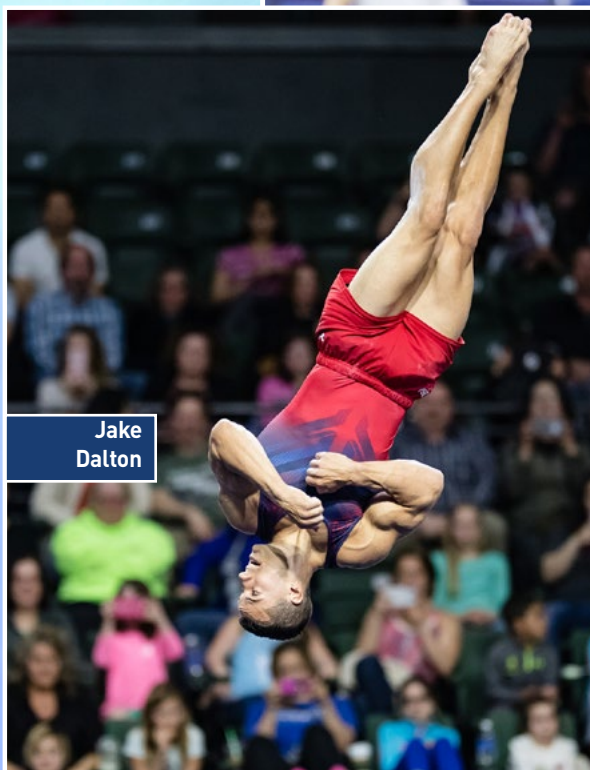

A parallel bar routine consists of predominantly long-hand swing, support and flight elements, which move above and below the bars. Watch for the gymnast to execute swing elements and skills in which both hands release and regrasp the bars. Some gymnasts move outside the two rails, performing press handstands and pirouettes on only one bar.

HORIZONTAL BAR

This event is also known as the high bar, and routines consist exclusively of swinging parts without stops. The parts are generally called giant swings, with more specific terms applying to changes in grip, direction and body position. Watch for the gymnast to execute release moves. Look for high-flying dismounts with multiple flips and twists and, of course, the gymnast aims to land the dismount with no extra steps.
