

**We are dedicated to bringing you the best in UK photography with a mixture of technical and creative speakers.**

This time we have Terry Donnelly, who will give a talk about utilising new basic technology, especially the use of mirrorless cameras versus DSLRs and LED lighting versus traditional flash, in both professional and amateur photography.

Our second speaker is

Margaret Salisbury. Margaret has enjoyed both film based and digital photography over many years, and has achieved a remarkable number of awards and qualifications. Her talk will cover a number of subjects

showing her long term love of photography, with images ranging from North Wales to African people in Ghana, Gambia and Ethiopia, plus some new works. Living at the Seaside an ongoing love of Seascapes and Landscapes in many parts of the world together, enjoying Nature and Travel photography as well as Creative Photography.

As always we will run our free to enter 'Bring A Print' print competition. Prints can be mounted or unmounted and any size, just bring one print with your name on the back and hand it in on the day.

The competition will be judged by our speakers and an award presented to the author of the best print on the day.

Sunday 22nd October 2017  
10:00am to 3:00pm  
Lowton C of E High School  
Newton Road

Lowton

Warrington WA3 1DU
