Tip 1 Give it air

Tip 2 Consider the rule of thirds

Tip 3 Move in close

Tip 4 Watch out for hot spots

Tip 5 Making the main point of interest standout

Tip 6 Pay attention to the surrounding objects

Tip 7 Pay attention to lines and curves

Tip 8 Include a size comparison

Tip 9 Avoid the Bulls eye syndrome

Tip 10 Odd is good

### **Tip 1 Give it air**

If you are shooting a moving object allow it room to advance through the frame

### **Tip 2 Consider the rule of thirds**

This is a procedure from the early days of photography by dividing the frame into thirds both horizontal and vertical. The intersecting lines provide Ideal points of interest by placing the subject on one of the points you can get a great composition

### **Tip 3. Move in close**

By filling the frame completely with the subject you eliminate any unwanted distractions

### **Tip 4 Watch out for hot spots**

This is a bright spot in the photo which distracts from the main focal point of the photo causing confusion for the viewer

### **Tip 5 Making the main point of interest standout**

The background should be darker than the subject. The foreground should point to the main subject

## **Tip 6 Pay attention to the surrounding objects**

No matter what your subject is any unwanted objects in the frame will cause a distraction taking the viewers' attention away from the main subject.

## **Tip 7 Pay attention to lines and curves**

Leading lines enhance the image

Curves are pleasing

Vertical lines show power

Horizontal lines show motion

Converging lines show depth

## **Tip 8 Include a size comparison**

If the photographed subject is unknown to the viewer it is always a good idea to provide a known object in the photo to give the viewer a size perspective of the subject

## **Tip 9 Avoid the Bulls eye syndrome**

A very common mistake made by many photographers is to place the subject in the center of the frame. This does not make the photo stand out from the normal mundane photo

## **Tip 10 Odd is good**

When shooting a group as the subject it is easier to set up angles which make it easier on the eyes

## **Conclusion**

In conclusion by practicing this simple techniques you are well on the way to gain perfection in your photography journey
