

Dear Supporter,

For over eighteen years, the St. Anthony/St. Louis Haiti Ministry has been supporting the community of Gandou, Haiti. Over the years, our impact in the community has grown primarily in the areas of education and healthcare. In healthcare, we support a year-round medical clinic, a clean water program in the community, and a malnutrition program. In education, we support St. Francis Xavier School, which has now expanded to include all grades from kindergarten through high school. We also have a university sponsorship program that helps promising youth receive a college education. Most of these graduates have returned to the community and are now helping to run our school and medical clinic.

Your help is needed to continue providing these essential services. Our education program is currently funded by student sponsors. This sponsorship program has grown and now provides reliable funding each year for almost the entire education budget. For the healthcare budget, we rely on fundraising and donations from our generous supporters. Because these donations can fluctuate from year to year, we are beginning a healthcare sponsorship program in the hopes of building reliable funding each year for our medical clinic expenses. We are excited about this program and hope you will be too.

Please prayerfully consider becoming a partner with us by sponsoring healthcare for some of the poorest of the poor.

The St. Anthony/St. Louis Haiti Ministry

I would like to provide yearly continuing support for healthcare in Gandou, Haiti by sponsoring:

- \$16,584 annual physician salary
- \$5,100 annual head nurse salary
