

NCAA DIVISION 2 WOMEN'S BASKETBALL RECRUITING RULES

NCAA Division 2 recruiting rules are slightly more lenient than Division 1. They are same across all sports:

- Any time:** Like Division 1, coaches can send recruits general materials at any point, including questionnaires, camp brochures, NCAA materials and non-athletic information about the school. Student-athletes can take an unlimited number of unofficial visits.
- June 15 after sophomore year:** College coaches can call, text, email, direct message and conduct off-campus contact with an athlete or their family. Student-athletes can also begin taking official visits at this time. They're allowed one visit per college and are granted unlimited total visits to Division 2 schools.
