

HOME PERFORMANCE WITH ENERGY STAR® FREE OR REDUCED-COST COMPREHENSIVE HOME ENERGY ASSESSMENT APPLICATION

Most New Yorkers can have a comprehensive home energy assessment for free or at a reduced cost. To qualify, you need to meet these four requirements:

1. You must own a 1-to-4 unit residential building.
2. Your total household income must meet the guidelines described below (see attached chart).
3. You must not have previously received a free or reduced-cost comprehensive home energy assessment on the building listed below.
4. You must provide a 12-24 month summary of the energy usage for your building. If you do not have access to a full year of data, you can complete and submit the Energy Usage History Waiver form located at the end of this application.

Approved applicants will receive a Reservation Number and information about terms and conditions. Once approved, you will have 90 days to have your comprehensive home assessment completed by a participating Home Performance with ENERGY STAR contractor. Free or reduced-cost comprehensive home energy assessments are available on a first-come, first-served basis while funding lasts.
