Re: Master Electrical Position

Summary of recent related feedback. I keep in contact with Jay, Human Resources at the Lomita and Crenshaw store. (He has requested several interviews, but has no openings at the time of this communication.) I have assisted in several projects with Norman Abel, the Electrical Dept. at the Lomita / Crenshaw store. And am aquanted with Oscar (another) Master Electrician, at the Gardenia location (Also a former U.S. Navy Sea Bee.) So if after the holidays, you are interested in what possibility I may be for the needs to be entertained; here is a variety of avenues to set up a meet with me:
