

Alabama Fireplace was established in 2010, out of the necessity to provide Huntsville with a fireplace dealer that not only could provide quick, quality work at a reasonable price but also provide service unmatched by anyone. We started this family business with just three of us with a decade of experience each in the Birmingham market. Through the years we have grown out of 2 locations and built our very own design studio with a small but craftful team of 8 individuals. We now have the largest showroom with burning displays in the state. We are a Premier dealer with Hearth-n-Home Technologies which is an industry leader in many categories. They have a large umbrella of different brands to fit your needs. We have loved the opportunity to serve this community with our little trade. Please come visit us if you need anything.

Sincerely,

Paul Graves co-owner

Scott Walker co-owner
