

Boil Water Notice Rescinded

10/22/25

On 10/20/2025 the Texas Commission on Environmental Quality required the City of Timpson public water system, TX2100003 to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of 10/22/2025

If you have questions concerning this matter, you may contact Larry Burns at the City of Timpson 936-254-2421 or 936-254-4511 (cell). Three microbial samples were taken from the area and were found clear of any bacteria.
