Appendix B1 Sample Retail Service Agreement

- I. PURPOSE. The NAME OF WATER SYSTEM is responsible for protecting the drinking water supply from contamination or pollution which could result from improper system construction or configuration on the retail connection owner's side of the meter. The purpose of this service agreement is to notify each customer of the restrictions which are in place to provide this protection. The public water system enforces these restrictions to ensure the public health and welfare. Each retail customer must sign this agreement before the NAME OF WATER SYSTEM will begin service. In addition, when service to an existing retail connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.
- II. RESTRICTIONS. The following unacceptable practices are prohibited by State regulations.
 - A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
 - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
 - C. No connection which allows water to be returned to the public drinking water supply is permitted.
 - D. No pipe or pipe fitting which contains more than 0.25% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
 - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
- III. SERVICE AGREEMENT. The following are the terms of the service agreement between the NAME OF WATER SYSTEM (the Water System) and NAME OF CUSTOMER (the Customer).
 - A. The Water System will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the Water System.
 - B. The Customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the Water System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the Water System's normal business hours.
 - C. The Water System shall notify the Customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic reinspection.
 - D. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
 - E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Water System. Copies of all testing and maintenance records shall be provided to the Water System.
- IV. ENFORCEMENT. If the Customer fails to comply with the terms of the Service Agreement, the Water System shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

UTILITY DEPOSIT APPLICATION & INFORMATION
CITY OF TIMPSON

The City of Timpson requires a copy of the Rent/Lease agreement from the property owner showing you are the renter of the property you are needing service. If you own the property, then a copy of the filed deed showing ownership is required.

Meters are read on the 15th of each month, if that date falls on the weekend or holiday the reading will start the following Monday or business day.

Utility bills are due on or before the 15th of each month afterwards a \$10.00 late charge will be added, if the 15th falls on a weekend or holiday you will have the following Monday or business day to pay without a late fee. Cutoff for unpaid bills will be 5 business days after late notices are mailed, this will usually be around the 20th of each month.

If utilities are cutoff for non-payment there will be a \$30.00 reconnect fee charged and possibly an additional deposit added before services will be cut back on.

If extensions are needed past the cutoff date you will need to call city hall before the cutoff date to make arrangements.

Trash will be picked up every Tuesday morning, trash needs to be by the road by 7am... if there is a problem with your trash services you need to contact city hall.

Payments can be made in person at city hall during normal business hours or in the drop slot after hours: at Austin Bank through the 15th of the month: online at www.cityoftimpson.com pay my utility bill, you will need your account number, address, and amount due.

By signing below, you acknowledge the receipt of the service agreements application and information.
