

Dragon's Lair Beads Cute Angel Star Pattern By Vicki Green

Have fun making this Cute Angel Star, she's adorable.

This pattern is a bead layout pattern and does not explain how to make a 3-Dimensional Star. We do have a beginner star pattern available at http://www.dragonslairbeads.com/beaded_stars.html

These are the beads that you need and the quantity's required:

Back ground #A DB-202 x950, Wings #B DB-41 x280, Hair #C DB-1221 x360,
Dress #D DB-245 x450, Halo #E DB-31 x70, Skin #F DB-204 x290, Trim #G DB-
56 x130, Eyes #H DB-47 x20,
Lips #I DB-856 x10

Each of the other 4 sections finish at Row 15. You will then zip together the 1 st and second section. When you get back down to the centre you then add the zip up row of beads along the second section till you get to the bottom of the point on the other side then zip it together and finish at the top then lock of your thread. Repeat with the other sections. The final section will just be zipped up as all of the beads will be there. Make sure that when you get to the centre to pull those centre beads together to create a nice circle in the middle.
