**Simply Staffed LLC** has a combined 35+ years' worth of experience in the fields of Human Resources, Recruiting, HR Operations, Performance Management, Career Development and Talent Management. We are proud to work with experienced consultants – from technical to functional and many with both. We provide process design, implementation, configuration, maintenance, and optimization of your HR Solution. It all started in Recruiting for us and since we receive requests for this service, we offer functional search services as well from our Recruiting group.

## Differentiators

- Time tracking and program management that allows your tickets to give you a big picture view of your budget and timeline.
- We start with leading principles and education of the product to help you design a solution that solves your needs while staying on track with time and budget.
- We work to be sure we understand your WHY so that we can advise the best way to build and optimize your solution and deliver a great candidate/user experience while increasing efficiency.
- We use root cause to reduce future tickets and improve solution performance when servicing tickets.
- Only experienced consultants with current certifications and solid track record work here.
- Government experience as well as public sector experience – happy to provide references from either.
- Inter-module communication: our consultants do not work in a silo and our processes enables end to end solutions that are solid and repeatable.
