

Item # 910-N95OVAV

## N95 Particulate Respirator with Nuisance Level Acid Gas Relief

This N95 rated respirator is designed to provide worker protection for non-oil based aerosol particles including those present with nuisance level acid gases such as sulphur dioxide, hydrogen flouride and/or chlorine.

Features a one way exhalation valve which makes it ideal for work in hot and humid conditions.

Suggested applications include the aluminum industry, chemical processing, paper processing.

### **Feature:**

**NIOSH Approved N95** - Filters at least 95% of airborne particles. For protection against toxic dust. Not resistant to oil. TC#-84A-4644

### **One Way Exhalation Valve**

**Active Carbon Layer** - Provides relief from nuisance levels of acid gas

**Adjustable Nosepiece** - Easily adjustable for proper fit.

### **Use For:**

Protection against processing minerals, coal, iron ore, flour dust, nuisance level acid gases such as sulphur dioxide, hydrogen flouride and/or chlorine.

### **Packaging:**

10 Respirators/Box, 12 Boxes/Case
