

# GAME

## Spaghetti Model

### OVERVIEW

Small Group Leaders will get a makeover when their students decorate them with cooked spaghetti noodles and pipe cleaners! The team with the most creative, fanciest design wins!

### WHAT YOU'LL NEED

- All of your small groups
- A timer
- Optional: A prize for the winning team (We suggest a can of SpaghettiOs!)
- Optional: Italian restaurant themed music
- Each Small Group will need:
  - 1 poncho (or large trash bag)
  - 1 stool
  - 1 box of spaghetti noodles (boiled)
  - 1 large bowl
  - 1 bundle of pipe cleaners

### HOW-TO

#### PREP

- Boil and drain the spaghetti noodles ahead of time so that they have time to cool, dry off, and get sticky.
- Divide the noodles equally among the bowls.
- Create sets for the game, each one containing a bowl of noodles, a poncho, a stool, and a bundle of pipe cleaners.

#### PLAY

Divide your students into their small groups and give each group a set of items. Ask the Small

Group Leaders to put on the ponchos and sit on their stools. Explain that teams will have 2-3 minutes to create the most creative and fanciest decorations on their model, using only the spaghetti noodles and pipe cleaners. For added fun, play music you typically hear in Italian restaurants in the background.

When the time is up, ask each model to come to the front. You and the other adults in the room will vote on the winner. We suggest that you give the winning group a can of SpaghettiOs to celebrate their victory!
