

Animals

No animal is kept as a pet at Mogghill. If a topic on 'Our pets' is timetabled, parents are informed of visiting animals, and children's allergies and anxieties are checked beforehand, and their cultural and religious practices respected.

Children and pets will be closely supervised and the children made aware of the need to handle the animals carefully and quietly so as not to excite animal or child. No child will be made to hold or come into close contact with an animal it does not willingly want to.

The washing of hands will be done immediately after handling the animal.
