Welcome to the Poplar Creek Flying Field and to the Northwest Radio Control Club! As a member of the Academy of Model Aeronautics (AMA #261), we are a non-profit organization who love to build and fly all types of model aircraft including drones. We follow both AMA safety guidelines and Federal Aviation Administration (FAA) mandates as we practice and improve our flying skills, and share the fun of model aviation with others!

As a member of the Northwest Radio Control Club (NWRCC), you will join a group of like minded individuals that meet at 7:00 pm on the second Tuesday of every month at Pioneer Park, Arlington Heights. Here, club members discuss old and new club business, share safety tips, and highlight some of their latest flying creations with a show and tell session! If you have some knowledge to share, we are all ears, and if you need some help with modeling or radio setup, we have many experienced members who would be glad to help you. Raffle prizes, special presentations, and our Family Fun Fly and Lunch compliment our meetings.

At the field, in addition to flying just for the fun of it, members can participate in contests designed to help improve your flying skills. These dates are announced in advance and are generally on a Sunday morning. You will find a Northwest flyer on the field most mornings weather permitting. Be sure to introduce yourself!

AMA Membership is a Forrest Preserve requirement to fly at the Poplar Creek Flying Field, but joining our club and getting to know our club members and attending our monthly meetings are good ways to build not only skill and safety but also camaraderie and new friendships. Here is what is required:

- A first year Northwest R/C Club membership is discounted to \$30.00
- Yearly Adult Northwest R/C Club membership \$60.00
- Youth Membership (18 and under) \$20.00 per year
