## ★★★★★ Can eat a whole meal with the NuSpoon

Reviewed in the United States on July 29, 2019

### Verified Purchase

We got this for use by inmates that self injure with normal cutlery, correctional sporks, and other options. These are very sturdy and the How To Video is great. They last a whole meal. The only downside which for us is an upside is that they don't cut but are sturdy enough to pick a solid mouthful of pasta, chili, soup, vegetables, or fruit. The fold keeps liquids from spilling when eating.

## ***nuSpoon: Premium Liquid-Holding Spoons for Corrections Facilities. Safer. More Functional. Worth the Investment.***

### **Superior Design:**

Patented fold creates a true spoon that actually holds liquids

Outperforms other designs - eat soups, cereals, and all meals with dignity

### **Key Features:**

FDA food-safe compliant solid bleached cupstock  
Durable enough for an entire meal  
Compostable version available  
Virtually impossible to fashion into a weapon

### **Unmatched Benefits for Corrections:**

**Enhanced safety:** Reduces risk of self-harm and staff injuries

**Improved functionality:** Suitable for ALL foods, including liquids

**Cost-effective:** Prevent incidents and potential litigation

**Dignified dining:** Allows normal eating in all units, including high-security
