Subject: Restored Wolverine Runabout

Dear Mr. Fogarty,

Alas, Cathy and I have fully restored our Wolverine runabout and have shown it in two boat shows in Idaho. The boating-people who have seen/studied our restoration at two regional shows have been impressed the innovative improvements and innovations. In fact, Mr. Don Hardy of McCall, Idaho, encouraged us to pen an article about our Wolverine. Now we again invite you to examine our work and critique our results. And, if you like what you see, would please scribe the epilogue for our contribution? I know members of the Wolverine Club would appreciate your efforts...and others who enjoy Wolverines and small runabouts, in general.

Sincerely,

Harley W. Reno, Ph.D.
