

Lodging~

www.africanspringssafaris.com

East Africa has just about EVERY type of lodging a person could think of from:

1. Campsites where you pitch your own and there is NOTHING but you and nature. You bring your own supplies, cook your own food and listen to the sounds of nature at night.
2. Campsites that are already set up for you – you can opt to bring and cook your own food or they can supply a cook and food. Many of these offer both tents and bandas/cottages.
3. Budget lodges with very simple and basic features and not a lot of variety room or food wise.
4. Lodges/Hotels – are available for those with just a simple and basic budget all the way up to luxury lodging. They offer a wide variety of options rooms wise, meals, entertainment and vary in size of how many clients they can accommodate.
5. Some lodges offer fly in packages where they collect you at the airport/airstrip and then have their own vehicles for the safari portion.

Once we know what you are looking for and the type of budget you are hoping to stay within we can set up for you exactly what you need and want.
