

How does a virtual VBS work?

We are so excited that you are tuning in today. We hope that you are having an exciting summer and we know it's about to get a lot more exciting. Here are a few tips on how to get the most out of our BIG FOOT excursion.

#1: Get as many brothers, sisters, friends, and neighbors together in a room with you around your computer or TV that can safely be together. It will make it more interactive and fun. If no one is around pull in Mom or Dad and do this with them.

#2: There will be times you are asked to pause the video and answer questions in the room and do an activity. Take the time you need and come back to the video and un-pause.

#3: There may be a list of materials for snack time or craft time that you might want to gather ahead of time so you are not looking for supplies, then you will be able to do it along with the video.

#4: Singing is fun. Learn the theme song and other songs at your own pace. Sing them loud and sing them proud.

#5: Tell as many friends as you can to log on to the Utica Church of Christ website (www.uticachurchofchrist.org) and do this along with you, then you can talk about it throughout the day.

OK let the fun begin – close out of this page and find today's session!
