

Parents,

We can't do Youth Ministry without YOU!!

Parents play an extremely vital role in the success of our youth ministry program. The partnership between parents and youth leader can only strengthen the journey for each individual teen. Through communication from parents to the youth leader, can we address issues that pertain to the teen and act as a team supporting him/her in whatever challenges arise.

I highly encourage you to ask questions about your teen's faith journey and be interested in their interest in their faith. Driving them and friends to youth group, helping them stay connected, and NOT grounding them from youth group if you are looking for a consequence! Please take away cell phones and social nights on Fridays before you remove youth group from their life!

Our youth group would cease to exist without the help of loving parents. Besides raising incredible teens and young adults, our parents do so much to support and help with our activities. Parents, we truly appreciate all your efforts and sacrifices to make our youth group as great as it can be. Thank you for all your support. God can do incredible things if we work together to make the way for your teen to be IMPACTed by His love through UCCYM.
