Tenerife

Tenerife is a hot and sunny island near the northwest coast of Africa. Tourists from European countries started visiting Tenerife in large numbers in the 1960s. The island now has many hotels and entertainment facilities, but the Tenerife government wanted to improve the quality of services available for tourists. In 2001, it passed a law that stopped cheap hotels from being built. Now, only five-star hotels are allowed.

1. What did the Tenerife government do in 2001? _____
