

Perfection Healing "13 Body System" Assessment and Correction

Overview: Your body was designed perfect by your Creator and this design includes it operating perfectly, in direct compliment to experiencing joy, happiness and freedom. This is actually His Will for you... and He holds it out for us all to experience it fully. However, there are things we can mis-create that causes it be 'out of balance' at best and in complete disrepair at worst. These 'things', like fear, are *energetic* in nature and caused by nothing more then a mistake in judgement at some point in time. But unlike love, this energy is 'fear-based,' which blocks the flow of love... which in reality is the 'life force' of all creation.

So, in essence, fear is a blocking energy, or disruptor to the flow of love's life force in the body. This flowing energy of love is highly intelligent, so not only does it maintain life, it too will repair the body as needed as well, remembering it was created perfect! Yet, like dirt can clog your gas line in your car, even if it gets clogged a little, it disrupts the 'perfect' performance of your car.

Thus, the body 'engine' is subject to the same energetic 'disruptions' or 'performance disfunctions'... yet unlike a simple car engine, your body has 13 engines of life (systems) that include 47 specific operating functions, all designed to work in perfect harmony with each other. So, if one is not functioning at 100%, it can create performance dysfunctions in all the others, some subtle while others more profound. Either way, both are capable of causing systemic disruptions if not addressed, removed or corrected.

Assessment and Correction: This assessment looks at each of the 47-operating function of the 13 body systems, providing feedback as to "to what degree" is each functioning 100% Perfectly. We do this by communicating directly with the body's loving intelligence and simply asking; Is its performance being compromised energetically and if so, what's needed to be release to correct it? The way we communicate with your body is a method called Auric Bodies Communications (ABC), which is very easy to learn and perform yourself with very little practice (see video instructions at PerfectionHealing.com).

Once the body systems assessment is complete, you will know which systems are running perfectly (100%) and which ones are not. The next step is to determine 'which emotional blocks of fear' have caused the problem so that correction can be quickly made. These blocks are again determined by asking the body's intelligent when it happened and specifics of the event that caused the misperception of fear that is needed to be deleted. Deleting it is the correction and requires your permission to allow it to be removed. Why permission? Because, love honors all you created, even if it was against your highest interest. If you created a blockage of fear, it will honor it and never remove it without your willingness to have it removed.

Next, through your willingness to have it removed, correction is made instantly; however, the full affect of it being removed may take a couple days to move into physical removal. But too, it can be instant depending on the issue and your willingness to release it. Either way it's gone!

Should your have questions, please email us or check in with a Perfection Healing coach. We'll happy to assist any way we can.

"13 Body System" Assessment and Correction Worksheet (1 of 2)

DNA CELLULAR SYSTEMS	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
DNA-Geno Function		
Inter-Cellular Communication		
Quantum Enviro-Communication		
3rd Eye Intuitive Function		
<p>DNA/Geno Optimization: every cell in our bodies have a DNA mapping function that can be blocked or negatively compromised in our duality environment. This adverse effects compromise perfect cell reproduction as RNA mapping happens as cells reproduce themselves; as well as, affects Inter-Cellular communication; cells talking to cells; Quantum Environment Communication: where we feel or sense through our auric light bodies 'sensing' the environment and intra-dimensional realms around us; and finally, 3rd Eye Intuition; Quantum field centered around pineal gland between the eyes.</p>		
LYMPHATIC SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Thymus		
Lymph Nodes		
Spleen		
Lymphatic Vessels		
<p>The lymphatic system has multiple interrelated functions: It is responsible for the removal of interstitial fluid from tissues. It absorbs and transports fatty acids and fats as chyle from the digestive system. It transports white blood cells to and from the lymph nodes into the bones.</p>		
RESPIRATORY SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Nasal Passages		
Trachea		
Lungs		
<p>The Respiration Exchanges Gases Between the Bloodstream and Body Tissues. The bloodstream delivers oxygen to cells and removes waste carbon dioxide through internal respiration, another key function of the respiratory system. ... The deoxygenated blood carries the carbon dioxide back to the lungs for release.</p>		
DIGESTIVE SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Stomach		
Liver		
Gall Bladder		
Large Intestine		
Small Intestine		
<p>The function of the digestive system is digestion and absorption. Digestion is the breakdown of food into small molecules, which are then absorbed into the body. The digestive system is divided into two major parts: The digestive tract (alimentary canal) is a continuous tube with two openings: the mouth and the anus.</p>		
URINARY SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Kidneys		
Urinary Bladder		
<p>The urinary system, also known as the renal system or urinary tract, consists of the kidneys, ureters, bladder, and the urethra. The purpose of the urinary system is to eliminate waste from the body, regulate blood volume and blood pressure, control levels of electrolytes and metabolites, and regulate blood pH.</p>		
Male/Female Reproductive System	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Female: Mammary Gland		
Female: Ovaries		
Female: Uterus		
Male: Epididymis		
Male: Testes		
<p>Female: It produces the female egg cells necessary for reproduction, called the ova or oocytes. The system is designed to transport the ova to the site of fertilization. Conception, the fertilization of an egg by a sperm, normally occurs in the fallopian tubes. Male: The purpose of the organs of the male reproductive system is to perform the following functions: To produce, maintain, and transport sperm (the male reproductive cells) and protective fluid (semen) To discharge sperm within the female reproductive tract during sex</p>		

Perfection Healing "13 Body System" Assessment and Correction Worksheet (2 of 2)

SKELETAL SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Cartilage		
Bones		
Joints		
<p>The skeletal system consists of 206 bones, as well as a network of tendons, ligaments and cartilage that connects them. The skeletal system performs vital functions — support, movement, protection, blood cell production, calcium storage and endocrine regulation.</p>		
MUSCULAR SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Skeletal Muscles		
Tendons		
<p>The function of the muscular system is movement. Muscles are the only tissue in the body that has the ability to contract and therefore move the other parts of the body. Related to the function of movement is the muscular system's second function: the maintenance of posture and body position.</p>		
NERVOUS SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Brain		
Spinal Cord / Medulla		
Peripheral Nerves		
<p>The nervous system is a complex collection of nerves and specialized cells known as neurons that transmit signals between different parts of the body. ... The somatic system consists of nerves that connect the brain and spinal cord with muscles and sensory receptors in the skin.</p>		
ENDOCRINE SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Pituitary Gland		
Pineal Gland		
Thyroid Gland		
Pancreas		
Adrenal Glands		
Male: Testes		
Female: Ovaries		
<p>The endocrine system is made up of glands that produce and secrete hormones, chemical substances produced in the body that regulate the activity of cells or organs. These hormones regulate the body's growth, metabolism (the physical and chemical processes of the body), and sexual development and function.</p>		
CARDIOVASCULAR SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Heart		
Blood Vessels		
Optimized blood flow		
<p>Functions of the cardiovascular system. Blood circulates through a network of vessels throughout the body to provide individual cells with oxygen and nutrients and helps dispose of metabolic wastes. The heart pumps the blood around the blood vessels, which too can be compromised by energy field imbalance that slow the ease and speed of blood flow.</p>		
INTEGUMENTARY SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Hair		
Skin		
Nails		
<p>The integumentary system consists of the skin, hair, nails, glands, and nerves. Its main function is to act as a barrier to protect the body from the outside world. It also functions to retain body fluids, protect against disease, eliminate waste products, and regulate body temperature.</p>		
LIGHT BODY SYSTEM	Current % Functional	Ask Guidance and Write Trapped Emotional Blocks to 100% Functional Performance Here:
Integration of		
Stress Management		
Feeling Management		
<p>The Light Body System is the electromagnetic energy system that is often called our Auric Body. It's consist of settle energy fields that are in constant communication with our environments, serving the purpose of integrated our physical energy bodies to the same.</p>
