

SIMMENTAL, SIMANGUS & ANGUS

Blue River
Gang Sale

43RD
ANNUAL
SALE

SATURDAY, FEBRUARY 1, 2025 | SALE STARTS AT 12 NOON | RISING CITY, NE

Welcome to our 43rd Annual Simmental, SimAngus & Angus Production Sale

We would like to take this opportunity to welcome all cattlemen and women to our 43rd annual production sale. What an exciting time to be in the cattle business. It is great to see producers get rewarded with top and record breaking prices. With the current cattle numbers reported, it looks like these prices could hold for quite some time. It makes more sense now than ever to invest in quality cattle.

Every year on sale day it is so refreshing to look out and see so many familiar faces in the crowd. Its thanks to you that we get to continue our dream and produce quality cattle that work in so many scenarios across the state and country. Thank you for putting your trust in our programs.

As the world gets weirder every day, we take great peace in knowing our children and families get to be surrounded by so many great people in this industry. There have been so many life long friendships and partnerships made through this industry, and we are extremely blessed for that.

You will notice a few different faces this year at the sale. We want to welcome the Groth and Fulton Families this year as they we will be consigning cattle to the sale. Both are family friends that we have worked with in the past and trust that their values and desire to raise quality cattle align with ours.

If you have never attended or been through our offering, we sure invite you to do so. If you cant make it sale day we will make it work for you to go through the cattle prior to the sale. Online bidding will be available. If there are any questions on any of the stock don't hesitate to call any of the consignors. We love talking cattle.

Jake Ruth and The Blue River Gang

BRG JUNIOR INCENTIVE PROGRAM:

\$200 County Fair Supreme Breeding Heifer
\$150 Reserve Supreme Breeding Heifer

B-C Lookin Sharp 7002E, Dam

One of the most elite open females we have ever offered. A sale feature that is worth making the trip, regardless of the distance. She comes from an elite pedigree on both sides. A direct daughter of the Lookin Sharp donor who recently demanded \$56K at 7 years of age. She offers so much power, middle, and length of spine while being very versatile on her feet and legs. This girl has a very bright future ahead of her and we believe she can have the same impact on the breed as her mother has, one that's capable of making the great ones. She has a great disposition and is broke to tie.

Rocking P Private Stock H010, Sire

Here is a high-end female out of the Fort Worth and NAILE champ Private Stock and the past \$40k dollar Denver sale feature, Versace. If you study this ones picture and video, she is hard to poke a hole in. We really appreciate her on the profile with her powerful hip, length of body, and how she ties into her front third. One that will be fun on the halter, and will excel once in production. Broke to tie.

KS Miss Sequoia Y770, Grandam

We purchased one half interest in this heifer's dam, a Fort Hayes X Sequoia daughter. My intentions are to flush this powerful red female to our Werning purchase, we call "BF Simple Man" a red white face bull to further our interest in a red line of Simmentals. M52 is our bonus "Lock Down" that we acquired in the cow. She is a big stout one! A little chrome came with the package, but I don't think she will be discounted for that. Help yourself!

Stare At Me 118Z, Dam

Not only does this open heifer bring a lot of quality phenotype to the table, but you have to look at her genetic make and numbers. She offers sound foot, roundness of rib, square hip, and ties together nicely from head to toe! She is broke to haul to shows or stay at home and look pretty with your herd.

W/C BF Simple Man, Sire

A Simple Man heifer this is so much like her sire. Beautiful red color and a perfectly symmetrical white face. That is not all that makes her special, so smooth bodies, good fronted and extra bone. Her dam is a solid black Executive Order daughter that we purchased from Hecksel Simmentals. Placed in the pasture with WC/ BF Ms. Simple Man and we landed this beauty!

This one comes from one of our newest donor cows I Candi that we purchased off the T-T Dispersal a few years ago. I Candi had a successful show career being named Reserve Champion Simmental Heifer at Nebraska State Fair. This one comes to the top of our list this year when we talk about show heifer candidates. She moves extremely well with a giant set of feet and legs. A well-balanced heifer that is great in her lines, has plenty of power, and has a great hair coat

Mr SR Mic Drop G1534, Sire

We absolutely love how this baldy female is made. With as much power she offers, she ties together extremely well and is elegant in her lines. She is out of the now deceased Mic Drop bull and a Revival daughter we got from Sloup's that has been exceptional for us. Her best days will be when she hits production, I can only imagine what this one will look like as a bred. This heifer is very docile and easy to work with, broke to tie.

Many years ago, we sold cattle on a sale called "Cow Time". Probably should begin this footnote with that term. "JT Volk Premonition 113E" is known for making that kind. M34 & M42 are flush mate sisters due to a flush of "KenCo Glamorous 430W". Also the grandam of Premonition! Worked out well considering cow power.

This heifer goes back to our 936 donor who we lost this past year. Year after year, she put sale toppers on the sale and quite a few back in our herd. If you flip a few pages back, you will see three flush mate brothers that will be features in the bull division. Her pedigree is stacked with maternal greats with Boots on the top side and Rockin Robin on the bottom. This girl has all the tools to have a successful show career and make the good ones once in production. Broke to tie.

Yes, we have a few Red Angus cows that float around the place as well. Our family campaigned this heifer's dam a few years ago. She's done nothing but pay bills around our place. A production-oriented female that gets the job done every time. We believe she got the job done with this one as well. Big ribbed, big muscled, and one that gets around with plenty of flexibility. Put this low birthweight female into your herd and never have to worry about getting up in the middle of the night to calve her out.

This Perfection daughter is out of the first show heifer that we bought from Stoltz Exotics. She did nothing but win shows for our family during her show career. As a cow, she's never missed either. She always produces big footed, stout boned, and big muscled ones. This high performance heifer resembles that to a T. We think very highly of this heifer and think you will as well. If you wanted to show this one, or any of the heifers we have to offer, we would gladly help you in any way.

C&C Intuition 7104, Sire

When the Ruth family asked us to join this sale, there was no doubt that we were excited. We knew that this heifer was going to be one of the highlights of the group we had to offer. This heifer doesn't need a lot of words to describe her. As the show heifer of the group, she's maternal, athletic, and an absolute smoke show from the side. This C&C Intuition daughter is what we love to see in a heifer, and it makes the decision to sell her that much harder.

C&C Intuition has been a homerun sire to use on our females. We believe this one is a smoke show. As the most moderate framed heifer that we have to offer, she is going to be an easy keeping cow for several years. She's huge ribbed, attractive hip and hindleg, and a female that proportions extremely well from the side. We think a great deal of this one and think you will as well.

The only ET heifer that we have to offer that is from our Angus herd. This SAV President daughter out of our 002 flush cow screams brood cow to us. Big footed, stout boned, wide chested, and big muscled are just a couple things that describe this heifer. We normally don't let ET heifers go very often but we wanted to make sure we offered the best from the heart of our herd. We think she will be nothing but a money maker for you.

S A V President 6847, Sire

S A V President 6847, Sire

Since she hit the ground, this has been one of my personal favorites. She'll catch your eye every time you walk through the calves. She sets her neck so high at the point of her shoulder and is extended in front of it, that she is hard to miss. She proportions so well from the side. She has great foot shape and a very attractive hip and hindleg. She does a lot of great things for us, and on top of that, she is out of one of our favorite females in the herd. Buy this heifer with a great deal of confidence, and she'll do the rest for you.

BULL GUARANTEE

- A. We offer a 60 day breeding season guarantee that covers fertility and career ending injuries within that first 60 day turnout. A replacement of equal value or sale credit (minus salvage value) will be issued for the following sale. Issues such as frozen scrotums and poor nutrition that are out of our control will not be covered. A veterinarian's opinion may be requested.
- B. Each bull will get \$200 off if taken sale day. Only bulls that passed semen exam will be allowed to leave on sale day.
- C. We ask that you contact us immediately if any other issues arise and we will do our best to make it right. We appreciate your business and strive to provide you with a guaranteed, superior breeding animal.

Strong Age Bulls

Ruth Ms Wide Range H754, Dam

We absolutely love the way this guy is made. One of our favorites in our offering. So correct in his lines, with a powerful hip and ties into a beautiful front third. On the move, this guy thrives, and is one of the best structurally in our offering. His dam (Minnie) is one of our up and coming donors who has been doing an incredible job for us raising high end bulls. We elected to go with the Affirmed bull for this flush to add length and frame while still offering enough look and power. It looks like it hit and Minnie delivered again! This guy on paper is a standout with eight traits being in the top twenty-fifth percentile. A outcross to several bloodlines in the breed and a phenotype like his, he gives you several different breeding options. Make sure you find this one sale day!

This guy's full brother was one of our favorites in our bull offering last year. This guy's footnote will be a copy and paste from his brother as they remind me so much of each other. A bull that will make the high end baldies that will crush the scales. He came out with an actual BW of 87 and never looked back. A clear leader in terms of weaning weight and performance among his contemporaries. His mother (Minnie) is the up and coming donor of ours that is quickly proving herself and exceeding our expectations. Definitely a bull that's on our short list and should be easy to find sale day.

A few years back Dad called after seeing this guys full sister top the sale on the Foxy Lady Bred Sale. He said it was one of the best breds he had ever seen. Shortly after we called our friends at Western Cattle source and purchased some full sib embryos. If you look into this guy's dam and what she has done for WCS program, you'd understand how good she is and how many winners she's produced. He's an outcross spread bull that ranks in the top 30% for BW and CE and top 20% for WW and YW. We believe that this guy has the most upside potential out of our entire bull offering. One you have to see in person to appreciate how good he is on the move, and how well he is put together. One that I would star and circle if your serious about being in this business for a long time.

LRS Ms Elevate 6019D, Dam

Ruth Beauty J178, Dam

Here is the natural calf out of our up and coming donor Beauty! He's a great candidate for a calving ease sire with an actual BW of 76 and ranking in the top 20% for CE and BW. He's one of the youngest bulls of our fall group and we think he's pretty special. Not only does he check the box for calving ease but he's got enough power and eye appeal behind him to make a beautiful set of replacements. One that can bring value in several scenarios.

Here is the lone two year old in the offering. His full brother was one of our top sellers last year, the only difference is that this guy is a blaze face! His footnote will read similar to his brothers in that he gives you several options on how to be utilized with how he is built and bred. He's a direct son of our matriarch W83. This mating has been proven to be one to utilize if you are making replacements. With his length of spine and size, he is sure to add pounds to his offspring. A bull that is ready to cover a lot of cows right out the gate. Trich tested.

We have been high on these three brothers all year long. They all offer a substantial amount of power, middle, and hind quarter while having that elite look. Study their video, move them around sale day, they excel on the move. They are out of our 936 donor who stems back to the great Rockin Robin female. On the top side, they go back to the infamous Boots. Talk about power in the blood! Whether your looking to add pounds or make high end females, these bulls will check the boxes. We believe M22 is among one of the best herd bull prospects we have ever offered, it is hard to make cattle that are that powerful, structurally correct, and still carry that elite presence on the profile. M631 is similar in his make up just a solid black version, while at the end of the day M47 may be the widest while still offering the blaze face. A great set of brothers to run on mature cows.

Red Empire has delivered for us again. If you are looking for a red calving ease bull, this guy definitely qualifies. He had an actual BW of 72. Ranks in the top 20% for CE, top 30% for BW and top 20% for MILK. If you're curious of what he could make for females, check out his full sister being offered as one of the bred heifers a few pages back in the catalog. This bull does have scurs but I don't think it will have much effect on the quality of his offspring.

This Red Empire son had a full sib brother that sold last year. Reports back were that he did a tremendous job. Study this guy's picture, he's pretty hard to poke a hole in. Definitely a calving ease candidate with an actual BW of 65 and ranking in the top 10% for calving ease and top 5% for BW. In total he has 7 traits in the top 35% with an API that is in the top 25%. His dam is full sibs to some of the best bulls we have ever offered in years past and goes back to our matriarch W83.

In our minds, this guy is at the very top of our list in our entire bull offering this year. He is an absolute powerhouse and has been that way since day one. He has our top weaning weight of all our bulls offered this year. He'll stand out sale day in the pen in terms of his power, length of body and performance. We have offered full sibs to this bull in the past and they have been our top sellers. His full sisters have been retained in our own herd and they

are among our top producers. Backed by the Confide In Me donor who was a full sib to Mr Confidence, the Denver Champion. He came out at 72 pounds and is rated in the top 25% for CE and top 35% for BW. His WW and YW are in the top 25% and 30% respectively. Its hard to make cattle that can be recommended for heifers and then turn around and be recommended for use to increase weaning weights, this guy can do it. Definitely one to find sale day!

This Red Empire son is out of our Liberty donor who is being offered as one of our feature breeds this year. That cow has delivered time and time again in raising bulls and heifers. When I see this guy I think he is capable of making replacement females all day long. Especially with how he is bred. He's got a very balanced set of EPDs behind him and his calves should be pretty moderate when born.

This past fall we had the opportunity to acquire the Zeba donor and add her to our donor battery. It was an easy decision for us after our high selling open last year was a daughter of Zeba making this guy a maternal sib. This was her natural calf at side at the time. If you are looking for a bull to add pounds put him on your short list. With his length of body and frame size, he'll be sure to do so. He ranks in the top 30% for WW, top 20% for YW, and top 15% for ADG.

STF Zeba 50E, Dam

T/D Doc Ryan 049, Sire to Lots 42 & 43

Man, oh man does this one get the blood pumping! This Doc Ryan son has done nothing but impress us since he took his first breath. He's big and good footed, stout boned, and has tons of muscle. His phenotype definitely gets a guy excited, but we think what he puts on paper should get a bull buyer excited too. He's out of one our most consistent producing cows on the place, who puts her looks into her offspring every year.

Growth and performance describe this bull to perfection. His sire needs no introduction in the breed. Doc Ryan was TD Angus's high selling bull on their 2021 sale for \$525,000 to Herbster Angus out of Falls City, NE. His dam is our 803 flush cow who has done nothing but produce good ones in her life so far, hence the reason she became the focal point in our herd. This high performing bull will produce fast growing, thick ended calves which every cattle feeder wants in today's market.

This blazed faced beauty by Timeless will be easy to find sale day. A few years back we were in search for a herd sire that would make high end females and we found Timeless. He has done an exceptional job for us and has made beautiful females like this girl, a lot of them we have retained for our own herd. She is due around sale time to Wolverine.

SAT Wolverine 916, AI Sire

I absolutely love how this female is bred. The Wide Range cattle are just flat good cattle. The Executive Order flush to our legendary W83 donor was by far one of the best flushes in her career that produced some of the best cattle we ever offered. The W83 story still hasn't died as she was the grand dam of Supreme bull at the NE State Fair this year. A female backed by these pedigrees designed and made like this should be a top producer year in and year out. Vet called her due prior to sale date to the AI Sire.

This is one of my favorite breds in our offering. I really hate to part with any of these Red Empire daughters but we simply can't keep them all. Study the

picture and video, she is hard to poke a hole in, and has enough frame, power, and look to make both bulls and heifers down the road. She is just as much a standout on paper as she is in person with 8 traits being in the top 25% of the breed or better. She should be paired out by sale time and the planned matings for that calf are super impressive with 14 of the 18 traits being in the top 35% of the breed or better with an API in the top 5% and TI in the top 10%.

 Pasture Sire: JES 753K from 5/22 to 7/7/24

402L is another bred that we see being a great addition to your cow herd. She carries a lot of really great features. You can see she has a big square hip, long body, and bone. If you look back in her genetics, she has a lot of really great ties to some great PB SIMM cattle!

THSF Lover Boy B33, AI Sire

We went back and forth on whether we were going to offer this female on the sale. Ultimately, we decided that we needed a feature bred to offer this year. This is a bred that we intended to put into our embryo program and still believe she has enough to offer to do so for her new owner. Study her picture and video, she is so good in her lines and moves out extremely well. She has enough style to make show females but is powerful enough and bred to raise high end bulls. She thrives on paper with an API in the top 15% of the breed. Her disposition is second to none. The vet called her likely to calve to Keynote and she should be paired out prior to sale. Now for the exciting part, the planned mating to Keynote would result in a calf being in the top 1% of the breed for API and Stay. Top 2% for Marbling, top 5% for TI and top 4% for BW.

Here I Am x Defiant

AI Sire: SAT Wolverine 916 on 4/24/24 • Due 2/1/25

Here is a club-calf bred female that was our grandsons market heifer project last year. A very docile heifer that is easy to be around. Vet called her due around sale time to the AI date

This bred heifer reminds us of the song from the movie Madagascar sung by a serenading hippo, "I like them big, I like them chunky. I like them big, I like them plumpy." To us 449L is known as Franny. She made the rounds this last show season in Nebraska and went to Simmental Regionals in Hutchinson, KS. She won a few and came close to many. She is exactly what you see in her picture and video. She carries a 5 1/2 frame score, so she is a bit more moderate in her structure, but dang does she pack a punch with her volume and dimension. This big girl speaks for herself and we believe she is your next half blood donor prospect or your next hungry hippo!

Another great cow out our donor 118Z. As an Innovator daughter, you'll see she carries extra length of body, a bit bigger framed, and is sound footed. She is a proven momma and will make another great addition to any operation!

Stare At Me 118Z, Dam

Ruth Ms Ruby J408, \$21,000
Full Sister

STF Onyx 451W, Dam

This girl was our feature lot and high seller in our 2023 sale for a total valuation of \$13,000. We sold half of her that day and partnered with Lehrman Simmentals. Her first calf sold was a beautiful red Red Empire bull that sold for \$5k plus. She's has another son selling this year in Lot 34. With her full sister demanding \$21k the prior year and being our highest seller ever we elected to put her right into our donor lineup. She has flushed very well for us with her first flush giving us 9 embryos and a recent flush this fall giving us 44 embryos! With Dan dispersing his cow herd recently and her flushing very well, we have decided to sell her in her entirety. Early in her career, she looks to make the good ones that are extra sound, big middled, and great necked just like her. She will be exposed to Red Empire for a fall calf, we will have a better idea of a calving date at sale time. This female does get nervous in tight quarters and is protective of her calf at calving time. To sweeten the pot, she sells with embryos out of her recent flush: (3) Mader Walk the Line x J151, and (3) Winc All Right x J151 embryos.

This female has done an exceptional job for us. If it wouldn't have been for our fall bull going bad on us, this girl wouldn't be offered. Full sibs of this gal topped our bull sale for consecutive years and she has raised some good ones herself. She's a direct daughter of our Matriarch W83 who still has offspring putting cattle in the winners circle. She is too close to call on her AI date but we will know more at sale time.

BAS Money Maker J801, AI Sire of Lot 68 & 69

This is one of the prettiest cows we've had around the place. She goes back to our 412 Angus donor and she had full sibs that topped the bull division for us consecutive years. THE ONLY reason we are letting her go is because we have retained 3 daughters of hers. If you look back through old catalogs, you'll find she delivered on putting high end bulls and heifers in the sale year after year. She is AI'd to the exciting baldy bull Money Maker and the vet called her likely to hit the AI date. We will know more at sale time.

This ones picture doesn't lie, she is a top end Angus female in the prime of her life. In production, she has done a great job for us putting both open females and bulls in the sale. We each have retained daughters for our own herds and now have elected her to be offered to be utilized in another program. The vet called her likely to the AI sire Money Maker who is making waves in the Simmental breed. Whether she hits to the AI sire or Timeless, there's a good chance she'll have a baldy calf that's impressive in person and on paper.

Back in our 2020 sale, we offered this female as our feature lot and sold half interest in her. She was the high seller that year for us to our great friends the Wilkes. Her first calf was a beautiful red baldy bull that was one of our top sellers the following year. After that we put her into our ET program and she has been delivering top end calves every year. One of her sons sells this year as Lot 28 and he is one of our most impressive yearlings in terms of power and performance. Look at her pedigree she is backed by greats, study her picture and video, she's as big middled and good footed as you can have 'em. She's delivered for us year after year and is right in the prime of her life ready to do big things for her next owner! Big time opportunity here!

Let's be honest here, this should have been a cow we made a donor. Our loss is most definitely your gain! Just look at this ground sow. She carries extensive volume from front to back, a big middle, major bone, amazing feet, square hiped, and depth all the way through her underline. On top of that, when looking at a cow that brings a punch like her, she is remarkably fronted. Don't let this front end, moderate framed cow pass you by!

Dang, another great cow that we have to offer you! She is out of one of our great donor cows 118Z and sired by a HOC Broker son. She is big and bold. Watch her on the go and you'll see her carrying a long front, big middle, bold features, and stout mid sized frame.

Stare At Me 118Z, Dam

This Xpection daughter has delivered some really good offspring in her career. She had a powerful bull calf this past year that always stood out in the pasture. Vet called her likely to calve late May to our herdsire Timeless, who has having exceptional calves for us.

ES Timeless JZ33, Pasture Sire

Offering 3 IVF embryos guaranteeing one pregnancy if done by licensed vet.

We were thrilled this past fall when we had the opportunity to add Zeba to our donor lineup. It was an easy decision as our top open heifer the previous year was a County O x Zeba that demanded \$8500. The mating to Walk the Line gets us fired up as we believe it will create some top end prospects whether a bull or heifer. Walk The Line semen itself demands north of \$350 per straw. HOT HOT Mating here!

Madel Walk The Line 92J, Sire

STF Zeba 50E, Donor
