

SIMMENTAL, SIMANGUS & ANGUS

44TH ANNUAL SALE

# Blue River Gang Sale

SATURDAY, FEBRUARY 7, 2026 | SALE STARTS AT 12 NOON | RISING CITY, NE

# Welcome to our 44th Annual Simmental, SimAngus & Angus Production Sale

We would like to take this opportunity to welcome all cattlemen and women to our 44th Annual Production Sale.

What an exciting time it is to be in the cattle business. We hope all of our customers have been able to reap the benefits of today's record-breaking cattle markets and that their previous investments have positively impacted their bottom line.

On our end, there are certainly days when we scratch our heads and wonder if it is all worth it. While recent cattle prices have been encouraging and certainly help, our investment and dedication to this industry go far deeper than anything monetary. The people we have met and the relationships built over the years are what we truly value. We are raising our families within this industry and feel confident that we are setting them up for success by surrounding them with people who have strong work ethics and like-minded morals and values.

A huge thank you must be extended to all the friends and family who make this sale possible. There is a tremendous amount of work done behind the scenes each year to ensure everything runs smoothly. We managed to schedule picture days during snow events and frigid temperatures not once, but twice this year. Despite less-than-ideal conditions, the team came together and made it happen—and we believe that effort shows as you flip through the catalog and see how the cattle are presented.

Our greatest thank you goes to our customers. We are fortunate to have several core customers who have been repeat buyers for years and even decades. It is truly rewarding to visit with someone mid-summer or receive a phone call sharing their successes—whether it be productive females, improved weaning weights, or cattle performing well on the rail. Thank you for placing your trust in our program and allowing us to continue our dream of producing quality cattle that work in a wide range of operations across the state and country.

If you have never attended our sale or evaluated our offering, we invite you to do so. If you are unable to attend on sale day, we will be happy to arrange a time for you to view the cattle prior to the sale. Online bidding will be available. If you have any questions about the offering, please do not hesitate to contact any of the consignors—we truly enjoy talking cattle.

Jake Ruth and The Blue River Gang

## BRG JUNIOR INCENTIVE PROGRAM:

We utilized this bull across our entire heifer group last year, as he ranks in the top 15% of the breed for Calving Ease and the top 20% for Birth Weight, with an actual birth weight of just 65 pounds. His sire, Frosty, was a go-to bull in our program for phenotype and calving ease, and this son offers the same dependable deliverables. His dam is a beautiful Epic daughter out of our ICANDI donor that highlighted our bred division several years ago and now resides at Circle G Farms. Too often, calving-ease bulls are expected to simply check a few boxes—small calves that come easy. We believe this bull does that and a whole lot more. He combines calving ease with style, structure, power, and a stacked pedigree. Be sure to find him on sale day. Trich Tested

Definitely a sale feature in our red division, this bull has been a standout since birth and continues to rise above his contemporaries—red or black. It's easy to envision the kind of elite replacement females he will produce. His sire, Redstone, was in high demand this fall when offered as an aged bull in Sloup's Fall Sale and continues to sire high-end cattle across the country. Study his picture and video and you'll see his stout build, depth of body, and the way he excels on his feet and legs.

This blaze-faced son of Chief checks a lot of boxes for us. Whether driving through the pasture at calving, during development, or in the yard, he's always the first one that catches your eye. He's striking on the profile, big-middled, and full of power, yet floats on the move. We believe he's capable of producing high-end replacement females while also adding pounds to your calf crop, ranking in the top 30% of the breed for weaning weight. Make sure to find this one on sale day—he'll be easy to spot.

CDI CEO 281D, Sire

This guy is an absolute unit! When it comes to power and performance, he has led our entire offering from the start. There was no surprise when his genomically enhanced EPDs came back that he would thrive in weaning and yearling weights as he ranks in the top 4% for WW and top 5% for YW in the entire breed while maintaining a terminal index in the top 25%. On the dam's side, he brings tremendous maternal value, tracing back to our proven Confide in Me donor. Make females, add pounds—we believe this bull has the ability to do it all!

Ruth Beauty J178

Here is another power bull out of our up-and-coming donor, Beauty. Study him on paper and you'll find seven traits ranking in the top 15% of the breed, including top 2% for weaning weight, top 3% for yearling weight, top 10% for ADG, top 1% for carcass weight, and top 15% for terminal index. We believe his calves will be moderate at birth—he posted an actual birth weight of 84 pounds and carries a long, smooth shoulder that is favorable for calving. With cattle as valuable as they are today, a bull like this—one that adds pounds and eye appeal—is a smart investment.

The dam of this bull is one of my personal favorites in the entire herd. At eight years of age, she still maintains a nearly perfect udder and is striking from a phenotypic standpoint. This is a bull you'll fall in love with on the side profile and admire even more once you get behind him and watch him move. He offers an exceptionally well-balanced EPD profile, making him suitable for a variety of mating scenarios. Study his EPDs from top to bottom—he excels across the majority of them.

This guy didn't just have a good picture day—he truly is that special. We purchased his mother a few years back, a big framed daughter of Built Right and the famed Burn Baby Burn cow, and she has done an excellent job for us. The New California cattle have done us very well, consistently offering look, power, and exceptional soundness. This bull has always been a standout in our program and led the entire fall group in weaning weight. I strongly encourage you to watch his video and, even better, come see him in person. He thrives on his feet and legs, which is no small feat for a bull of his frame and stature. One that is absolutely worth the trip to Rising City.

Last year, this bull's full brother was a sale feature and one of our top sellers demanding \$8,500. This flush brother is nearly a carbon copy. He traces back to our proven Wide Range Donor 754, a cow notorious for producing sale toppers in the bull division over the past three years—regardless of the mating. The cross to Affirmed did exactly what we hoped for, adding frame, length of body, massive hip, and a strong front third. He's a standout on paper as well, ranking in the top 20% for API and the top 15% for TI. Expect calves that come easy, take off early, and lead the way in weaning weights.

If you are looking for a purebred red calving ease bull, I'd put this guy at the top of your list. His Genomically Enhanced EPDs came back and he ranks in the top 1% of the breed for both Calving Ease and Birth Weight. On top of that his MCE is in the top 2%, Marb top 10% an API in the top 4% and TI top 15%. A very complete bull that is sound structured and offers plenty of punch. A full brother topped our 2024 sale demanding \$9500. There are a lot of similarities between him and his brother but we believe this guy offers a little bit more power and is better overall phenotypically.

If you are looking to add pounds and have cattle that feed and convert, we highly recommend this guy. Another leader in terms of weaning weight for our yearling division. Once we put all the bulls together to develop them for the sale, it was easy to confuse this guy as one of the falls. Once you see this guy sale day, you will admire him for his power and performance and depth of body. He had three flush mate brothers that either topped the sale or were among the high sellers in previous sales and goes back to the no miss Confide In Me Donor.

One of our favorite bulls offered in recent years and high seller last year was a flush mate to this guy. They offer a lot of the same qualities this guy is just in a solid black package. His mother was a cornerstone donor for us that we no longer have with us or an embryo inventory on. The New California cattle offer a lot of look and eye appeal with performance. Look for this bull to do the same.

BF Miss Confide In Me, Grandam

It's not often that we all agree, but one constant this year is that we all believe that this is one of our best in the offering in both the spring and fall groups. He was a standout in the pastures all summer in terms of power, performance, and phenotype and led the yearling division in terms of weaning weight. We are big fans of his sire and have retained every daughter we had this year. His dam is a consistent, high producing female that goes back to our cornerstone donor Confide in Me. This guy's length and depth of body, powerful hip, and long front third make him easy on the eyes. Watch his video, see him on the move he excels there with great feet and legs. There will be many strong bulls in this season's offering, but this guy stands out as a true powerhouse-you'll want him at the top of your list.

If you flip through this years catalog and previous years you will see this Dam pop up a lot. She has done a great job for us raising high sellers in the bull division and putting females back into our herd. This is her natural calf by Patriot. We elected to use Patriot on her to add length of body and frame, and we got just that. If there is a bull that I believe is a "sleeper" of the sale I believe its this guy.

Once he matures out id put him up there with some of the top end bulls in the offering. At the end of the day we all get paid in pounds, this guy has enough power, length of body, and frame to add that into his calf crop. He has the backing genetically and a powerful set of numbers behind him to make good cattle that will excel at weaning, feeding, or maternally.

We really like the way this guy is bred. Money Maker is making waves in the Simmental breed and looks to be a game changer. On the dam side it goes back to the great female maker Chief. Before his Genomically Enhance EPDs came out, I would have recommended this guy as a heifer bull as his actual Birth Weight was 79 out of a first calf heifer. He has 8 traits that rank in the top 15% of the breed with his WW EPD being in the top 4%.

Ruth Eagle J93, \$8,250  
3/4 Brother

This bull checks a lot of boxes for us. He came out with an actual birthweight of 79 and has an adjusted weaning weight of 756 pounds. He is about as complete and functional as you can make one. He is in the top 10% of the breed for both CE and BW and we would recommend him for use on heifers. Unlike other calving ease bulls he offers performance at weaning and a strong terminal index. His mother is coming up on 11 years old and with solid performances year after year we elected to flush her. On her first cycle back after the flush she stuck AI and will be one of the first to calve again and still possess a perfect udder. Great friends and customers of ours at D&R Farms have bought two 3/4 sibs out of this bull and have great success when taking their cattle all the way to the girl. There are no guarantees in the cattle business, but when we think about predictable success, this bull is exactly what comes to mind.

Last year's feature bred female and high seller for us, Miss Firesteel 443L, is the dam of this exciting bull. We retained half ownership and proudly partnered with the Mottl Family. On sale day, she laid down and had this striking blaze-faced bull calf. The Mottl family had their ten-year-old son show him successfully as a prospect bull calf, helping shape his outstanding disposition. Built with a smooth, sleek front end and born at just 78 pounds, this bull checks all the boxes for those seeking a calving ease option without sacrificing look or performance. He has a strong EPD profile behind him and has an API in the top 10% of the breed and a TI in the top 25%.

# ANGUS

Our favorite calf as a baby, and maybe the best one we raised when we sent him to grass! This guy made doing chores in the middle of a snowstorm somewhat enjoyable. The look that this guy possesses is truly incredible. He is one that proportions from the side with plenty of eye appeal and a guy that motors around on really good feet and legs. His mom is by far one of the most impressive females in our operation. She has simply never missed. She is our main donor cow and focal point of our herd. She outdid herself this year by having a set of twin bull calves (and yes, his wombmate is on the sale too). He is out of STAG Good times, who needs no introduction to the breed. Buy this one with confidence!

This beast will sure get your blood pumping! He has huge feet and legs that are super functional. This guy is full of red meat with tons of growth and performance. He paints the perfect picture of an angus production bull. His calves will be good sized when they hit the ground, and from there on out they'll be putting on the pounds, just what every producer wants. He's out of C&C intuition who has been a homerun sire for us the last couple of years. His dam truly is one of our better younger females in the herd who hasn't missed in her short production life. If you are looking for a bull to put on cows and formulate a big check come weaning time, this guy absolutely needs to be at the top of your list!

If you like style and power, look no further. This bull is wicked good looking from the side. He's got the most muscle that I have ever seen a calving ease bull possess. He is extremely big hipped with a very attractive hindleg. Sporty is the one word I would use if I had to describe this stud. He is out of a first calf heifer that our family campaigned with lots of success. On top of all of this, he screams calving ease. He's in the top 2% for calving ease, 10% for birthweight, top 3% for the calving ease maternal EPD, and top 10% for milk in the Angus breed. What he puts on paper as well as physically is truly impressive. If you like sleeping through the night, check this guy out!

GA Violet's Famous One 301

Old reliable! By far our favorite mating to date and one that is always consistent. We only have a few eggs in the tank with this mating left. Our great 002 cow passed away this last year. A female that I showed back in 2011 and found a lot of success in the showing with. With all the success she had in her show life, it doesn't even come close to the success she had in her unparalleled production life. Most of our herd goes back to Devine, and our family couldn't be more grateful for the cow she was. This bull puts everything together. The big framed bull has tons of muscle and a guy that gives you an attractive look from the side. His growth numbers are excellent while coupling it with his top 15% milk EPD in the breed. Buy this stud with confidence for a quick ROI when selling his offspring come weaning time.

GA Violet's Famous One 301

516 is a maternal brother to last year's high selling bull we offered. He's an easy maintaining bull that is ultra good in the center portion of his body. He is a wide chested, stout pinned bull that has a ton of red meat. A bull that is so easy to look at that he gets us excited every time we go through the bull offering. He is one that checks a lot of boxes for us. His mom has been super consistent for us. She puts her look and muscle shape into every calf, and it doesn't matter what bull we breed her too, she always performs. If you like consistency and want to implement that into your calf crop, this bull is for you!

GA Lady of Fami Payweight

A bull that is out of one of our favorite first calf heifers. He's got style, muscle, great feet, legs, and growth and performance to go with it! He is out of our great herd bull from the Buford Ranch down in Oklahoma. He goes back to SAV genetics so there is even more confidence backing this guy's pedigree. This bull's dam is out of C&C Intuition who has been one of our favorite sires to use in the last couple of years. She really gets us excited for the future on what she brings to the table. She puts the look and performance into her progeny, and we think she started off with a bang!

This young Coping With Destiny daughter will catch your eye sale day. She is long and elevated in her head and neck junction. She moves extremely well with a great set of feet and legs. A well-balanced heifer that is great in her lines, has plenty of power, and has a great hair coat. We feel she has the potential to be pretty special in the show ring.

TBar Icandi 205H, Dam

We are big fans of this female, as she has been an absolute standout since birth. This purebred offers an immense amount of power while remaining correct in her lines, giving her that big-time show heifer look while also excelling on the move. She has Purple bred into both sides of her pedigree, with Cope on the top side and our donor ICANDI on the bottom side—a many-time winner herself, highlighted by being named Reserve Champion at the Nebraska State Fair. She is definitely a sale feature for us in the open division. Broke to tie. Dam sells as Lot 53.

Didn't take the best picture but I think the best female we raised this season! Sold a full sibling to this one for \$10,000 recently. Dam is a solid black County O that is now my top donor. These two Insurrection females and a red white faced bull that we're showing in Oklahoma City at the Congress, out of a Simple Man bull are helping me realize this donor's potential. Take a good look at this heifer, put her in thirds and then look at the bone underneath.

Brood cow alert! This female does a lot of good things for us. She's jam packed with muscle, has an incredible ribcage, and is as sound as your neighbor's tom cat. Her mother has been as consistent as they come. She always breeds back the first time and seems to never miss with any sire we breed her too. Versatility is the best and most consistent word that we catch ourselves saying when discussing this female. She will be a fertile, low maintenance female that is built for longevity. What more does any cattle producer want? Look here for a quick ROI!

ICANDI was acquired during our great friends T-T Dispersal Sale, where years of disciplined breeding culminated in offering what was arguably the very best female they ever raised. She backed up the hype in the show ring as a multiple-time winner, highlighted by a Reserve Champion Female title at the Nebraska State Fair. Even after production, her structural integrity, balance, and overall design remain exceptional. A female that truly needs to be seen in person to be fully appreciated. Her very first natural calf was a featured lot in our bred heifer division and is now in production for the Gruber family. She has also found success producing marketable sons and continues to excel at generating high-end females, including Lot 40. A proven producer with momentum on her side. Her last Vytelle flush she froze 13 embryos. She has a beautiful solide red bull calf by Night Owl at her side that looks to have a very promising future.

We were honored to be part of the ownership group for **BAR CK RED EMPIRE** and have utilized him heavily across both our fall and spring breeding programs, with plans to continue doing so. Since his progeny were first offered, Red Empire offspring have topped our sales in the bull, open, and bred divisions. Multiple daughters have been retained for our own herd, where they are proving to be phenomenal mothers. For those seeking females with elite fertility, outstanding udders, sound structure, and backed by great numbers, Red Empire daughters come highly recommended.

AI Sire: GCC Night Owl 3104L on 5/7/25 • Due 2/13/26  
Est. PM EPDs: 14 -1.1 72 110 .23 8 20 56 14 11.6  
Carcass: 28.2 -.35 .45 -.05 .97 151 86  
Pasture Sire: Ruth Gruber Frosty M205 from 5/10 to 8/23/25

We believe this female is the most phenotypically complete Red Empire daughter offered this year. Her dam has been a consistent, dependable producer for us year after year, and we expect this one to follow suit. She is bred to the exciting new sire Night Owl of Griswold's, setting up a mating that impresses both on paper and in person. Vet called safe to the AI date, due shortly after the sale.

GCC Night Owl 3104L, AI Sire

Pasture Sire: Ruth Gruber Frosty M205 from 5/10 to 8/23/25

This female is the kind that will impress both in person and on paper, ranking in the top 20% of the breed for nine traits. It's rare to find one this phenotypically complete while also backed by such a powerful EPD profile. Her dam is an attractive Shear Force daughter tracing to Sloup's Cornerstone donor Red Suspicion. She is AI'd to Jack Red, creating a mating that promises to be just as impressive on paper as it is in the flesh. She is too close to call off the preg check but we will know more on sale date.

AI Sire: KBHR Keynote K229 on 5/7/25 • Due 2/13/26  
Est. PM EPDs: 16 -3.4 77 120 .27 10 23 62 18 7.5  
Carcass: 38.6 -.17 .79 -.02 .76 185 100  
Pasture Sire: Ruth Gruber Frosty M205 from 5/10 to 8/23/25

This blaze-faced Red Empire daughter is sure to turn heads on sale day. She excels on the profile and offers the power and balance needed to consistently raise both standout bulls and elite replacement heifers. Her dam sells as Lot 76 and has done an exceptional job producing high-end offspring for our program. Put a big star by this one and make a point to find her on sale day—she's the kind that makes money. Vet called her likely safe to her AI date to the Keynote bull, a mating projected to result in offspring with six traits ranking in the top 10% of the breed and an API in the top 2%.

Ruth Elvira E755, Dam

Ruth Ms Wide Range H754, Dam

Another blaze-faced beauty by Red Empire tracing back to our proven Wide Range Donor. Take a look through the bull division of this catalog—and the past two years—and you'll find maternal brothers to this female that have been featured lots and sale toppers. We have retained several maternal siblings in our own herd, all of which are proving to be outstanding producers. Vet indicates she is likely safe to her AI date, setting her up to be paired with a highly anticipated Night Owl calf by sale time.

This baldy Red Empire daughter traces back to our B936 donor, a cow we no longer have with us. In her final year of production, B936 raised twins at ten years of age—an impressive testament to her maternal ability. We elected to retain the solid black sister and are offering this baldy female. Her dam consistently produced high-selling offspring in both bulls and heifers, including last year's top-selling yearling bull, a maternal sibling. We believe this female has the same potential, capable of raising elite bulls and high-end replacement females alike. Vet called her safe to Night Owl and she will be paired out by sale time!

In our 2024 sale, a full sib brother to this girl was our high seller demanding \$9500. She has another full brother being offered this year in lot 13. With her EPD profile and phenotype she is capable of raising bulls that can lead the breed especially in CE and BW. She herself ranks in the top 5% for CE and BW as well as an API in the top 15% of the breed. We rarely let females like this go, but the vet called for an April calf leaving her just outside of our calving window.

Without a doubt, this female is one of the highlights of our bred division. See her in person—you'll be hard-pressed to find a flaw, both in profile and on the move. She is sired by the now-deceased Exclusive bull, and her dam sells as Lot 75. If you're wondering where she got her good looks, the apple didn't fall far from the tree. A veterinary exam indicated an April calf, but she is really starting to show, so we aren't ruling out the AI date. We'll know more by sale time, but whether she's carrying the AI sire or the Frosty son, the resulting calf is sure to be a standout.

One of our favorite bulls in recent years, Lock Down, left a lasting impact on our program, and this female is proof of his quality. On the bottom side, she traces back to the great Sequoia cow, giving her proven, elite bloodlines on both top and bottom. See her in person, and you'll admire her bone, depth of body, and excellent front third—she's truly a front-pasture kind. Shown last year by the Heinrich family, she also boasts a fantastic disposition. Her calf by Night Owl is sure to turn heads. She wasn't exposed to a bull until August and Vet Called Safe AI.

KS Miss Sequoia Y770, Grandam

Went north to acquire this red head at Chambers Cattle Company. We bought her to show locally and was named Champion Simmental at the Nemaha County Fair. Opportunity to own a good red purebred.

OMF Epic E27, AI Sire

I don't know where to start with this awesome female! I own her mother with Brock Lauritsen and as soon as she was born we both new she needed to be showed and so we did. She had many banners and jackpot wins including top 20 Bred and Owned Percentage Heifer at Jr Nationals and then, after running on pasture and stalks for 3 months, was most recently Reserve Percentage Female at Cheyenne Livestock Expo in November. Her barn name, "Pasture Princess" is very fitting. She is front pasture kind and the biggest sweet heart you will meet.

EKHCC Red Jewel 760, Grandam

THSF Lover Boy B33, AI Sire

This red baldy out of a 20-20 x Red Jewel daughter is a flashy, attention-grabbing female. She is long spined, deep ribbed, sets down perfect on all fours, ties beautifully through her front shoulders and is very extended through her front 1/3. She is loaded with breed-leading cow families on both sides of her pedigree. The profit-making potential of this caliber of female is limitless.

Here is a nice Cowboy Cut daughter that goes back to one of the Peterson family's cornerstone donors. Since she has been in production for us, she has either put a bull in the sale or has had a heifer retained for our herd. A good honest cow that has been a great producer. Vet called her due to our herd sire Timeless who has been having great calves for us.

This striking red female was acquired from the Eichacher program and has proven herself as a dependable producer. She has already contributed quality females to past sales and has raised impressive red bull calves for the program. Now in the prime of her life, she's a cow with the power and consistency to keep making good ones. She is bred to the Frosty Son that sells as Lot 1.

*Greta is a powerful, eye-catching female sired by the great Relentless and backed by the previous donor of Nabers, Lucky Butt. She continues to prove her worth as a producer, with a standout daughter featured in this year's bred heifer division (Lot 60) and a top Red Empire daughter being retained in the herd. A cow that consistently makes the right kind.*

*If you flip through past catalogs, you will find several offspring out of this cow. She has done a great job for us raising both bulls and heifers. One of her greatest success stories was a daughter of hers that went on to raise a high selling bull for the Gonsior program. Look at her daughter (lot 56) to see more examples of the offspring she can produce! She is exposed to Timeless and the vet called her likely to calve right around sale time!*

THSF Lover Boy B33, AI Sire

This Dignity daughter is one unique individual. She has a ton of rib capacity and an extremely attractive front end. To top it all off she's also got a lot of bone and foot size and is very good on her pasterns. There are so many things this heifer could do for a program, and I am super excited to see her in production. We all want a pasture full of these kinds of females. Don't miss this one.

Pasture Sire: Long's/BF Entitled H15 from 4/1 to 6/10/25

We picked up a couple of Angus heifers from neighbors south of us, Bredemeier Angus in Stella, NE. We decided to mix it up a bit at the county fair, this one became the Champion Angus at the Nemaha County Fair. Very Docile and easy to show. Also easy keeping! we have been impressed with the halfbloods we get each calving by Long's/BF Entitled.
