

MC 128

Designed specifically for heavy use applications, MC128 keyboards continue to perform long after others have failed or worn out. PrehKeyTec is so confident about the quality and durability of our German engineering, that a three year warranty is standard on every unit.

Available in both Row & Column and an Alpha layout, the PrehKeyTec MC 128's small footprint fits neatly in over scanner mounting trays and on compact cash drawers. Typical applications included limited department retailers like C-stores, grocery, and dollar stores.
