

November 25, 2019

Dear COM Members and Families,

COM has been blessed with another great year in 2019. COM has seen changes and growth, encompassing all levels of competition, increased membership numbers, and an overwhelming positive interaction with all our partners, patients, athletes and members.

In addition to COM's reoccurring seven home meets, we held several other events, including the revamped 3rd annual BIG Show. For the first time, COM hosted the USA Diving Zone F Championship Dive Meet. Campus wide membership averaged approximately 2500 members each month, not including COM's community partners' programs.

The policy of COM Aquatics has been to slightly increase dues annually in order to keep pace with increased operational costs and inflation. At the annual membership meeting this year, the membership voted to increase dues for swim team and all other membership programs by 3%. Dive team members saw a dues increase in the last quarter of 2019, and will not have an increase at this time. This increase will be reflected on your January billing statement.

None of this work could have been accomplished without the support and help from you, our members. COM is incredibly grateful for the enduring support. Thank you.

Respectfully,

*Brad*
