

TESTIMONIES OF THANKS FROM ADORE AUGUST 2022

Thank you for another wonderful morning: I am always deeply moved - as if the various songs and comments are directly personal to me.

I thought that overall it was very good and the talk from Jenny Baker was amazing and also very informative it makes you look at yourself more especially the blind spots, I liked the question and answers more as the breakout rooms can cause stress especially if you cannot find something to say quickly, thank you it was wonderful.

Jenny's insight on the Our Father and her response to questions - practical and significant.

Always an uplifting time in the month

Witness and sharing from a personal experience perspective

Your beautiful prayer group and retreat is mind blowing. Commencing with Holy Mass and Adoration radiates the light and the love of God. It's easy to see the Lord directs your steps in all you do. Prophetic sharing, praise and worship, testimony and talk and prayer were all wonderful. You enhance our ability to receive God's love. Powerful. All your participants presence unfolds and helps us to find the concealed door. Praise God for you all. May Jesus be with you always guiding your way. Thank you.

I liked the way that the priest led Mass in every way: he seemed competent, grounded, intelligent and wise - a priest I'd like to talk to and even confess to!

Carolyn's sharing was profound and deeply authentic as ever.

Jenny Baker was candid, big-hearted, insightful and very informed.

The last two worship songs were deeply moving and sensitive ...

It is so reassuring to know that the prayer line is there when needed

Very Spiritual Mass as usual, but this time the Eucharistic host shone out as though Transfigured!

It was a beautiful and peaceful time. With lots to reflect upon.

Its good

Some encouraging openness

The worship was phenomenal. I felt really joined to everyone. The talk from Jenny was very illuminating.

All was good it made me think

Peaceful and not over the top.

I was very moved, everything so well organised, leading smoothly and naturally from one area of worship to the next. Loved the very tranquil prayer atmosphere, gentle music ministry with meaningful words to praise and worship especially the guitar playing: the right amount of silent Adoration time. There was much in the prophetic sharing to focus on (would like it displayed after the session to return to, maybe I need to explore the site and see if it is online to read and reflect on.) So good to be able to hear the talk again which was most valuable in teaching (thank you Jenny Baker) and I did get much from the Q and A section. I was able to forward the video to a friend to encourage her to join the monthly meetings.

Liked variety structure

Question and answer session very good.

The format works well
