

For more than 25 years, MyTGuy Designs has served our business and ministry customers with a commitment to quality, service, and low pricing. We have always worked to keep prices low, because those whose lives are impacted by your work, services, and ministry are also important to MyTGuy. I have always believed that if I can save you money on the products and services we provide, it will help those you help in some small way.

With the start of a new year and new decade, the vendors that I count on most to deliver great quality have faced the need to account for the greater cost of goods and services from an international supply chain.

I will continue to work to save you money as I always have. I just need you to know that pricing will seem a tad higher this year due to the increased cost of supply.

Sometimes, the need for a specific color will require that we mix a custom batch of ink, and there is a fee for that. However, if we can keep your art to the standard ink colors on the next page, there will be no mixing fee.

In addition, I thought it may be helpful to you to see the various options that are available to you in the screenprinting world, and the costs that are associated with those options. For example, for the first time, now have access to **oversized prints** and a process that **simulates 4-color process printing**, as well as **Foil, Glitter, High Density, Stretch, Soft Hand, and Puff** printing.

Looking forward to 2020!
